"*Ghostbusters* is one of those rare movies where the original, fragile comic vision has survived a multi-million dollar production." — **Roger Ebert, *Chicago Sun-Times***

"Whoever thought of having evil's final manifestation take the form of a 100-ft. marshmallow deserves the rational mind's eternal gratitude. But praise is due to everyone connected with *Ghostbusters* for thinking on a grandly comic scale and delivering the goofy goods, neatly timed and perfectly packaged." — **Richard Schnickel, *Time***

"*Ghostbusters* is relatively sophisticated: it substitutes the silly for the gross, and even manages at the odd moment to take silliness into the sublime." — **Jay Scott, *The Globe and Mail***

TESTIMONIALS

"I recently rented the theatre for a six-day event and it was an incredible experience. The staff at the Frida is accommodating, helpful, and overall a pleasure to work with. The theatre has so much character and is such a gem! I would highly recommend the theatre for anything from just seeing a film to renting the space. I know I'll be back here time and time again!"
