DIRECTED BY JOHN-PAUL PANELLI | USA | 2019 | COLOR | 83 MINUTES | **NR**

Epic Pictures returns with their latest nightmare-inducing found footage horror film, *They're Inside*. Best described as *The Blair Witch Project* meets *The Strangers*, the movie follows two sisters (played by Karli Hall and Amanda Kathleen Ward) as they head to an isolated cabin along with their friends.

As family secrets are revealed, the group realizes they are being filmed by masked strangers . . . Will they survive this horrific night?
