

2 ART GALLERY COFFEE SHOP/BAR

STUDIO III/ SPRING 2022

Software: Revit

This project will take place at an art gallery in San Francisco, California. The design of the art gallery will present colors found in nature such as blues, greens, and browns. The element of natural light will be present in the space. The clients will feel connected to nature. Large-scale sculptures will be placed around the space representing the large-scale objects in the artwork. will be placed in the center of the space. It will be the focal point of the art gallery creating balance and harmony.
