Tips to have a smooth WWP kickoff in the fall!

Dear Jennifer,

Before you stow away your pink tablecloths and start making summer plans, read on for a few key pieces of info that will help you have a smooth WWP kickoff in the fall.

1. Order your study guides early. We are fully stocked right now with many of the study guides that were sold out last month, including [\*Living in the Father's Love\*](#), our brand new short study, [\*Ordering Your Priorities\*](#), the powerful [\*Fearless and Free\*](#), and more!
2. Remember that every year it's important to offer [\*Opening Your Heart: The Starting Point\*](#) for any participants who are new to WWP.
3. *Touching the Divine* is getting a refresh! The same great content is being consolidated into 22 lessons to be consistent with our other long studies. This Second Edition will debut in the WWP Shop in late summer (and we'll

send an email to you when it's available). If you're offering TTD at your parish in the fall, be sure your participants are all using the same edition!

4. Reclaiming Friendship paperback study guides are currently sold out. We expect to have more copies in August, but if you can't wait, your group can always download and use the digital e-book version.

We hope that a little advance planning now will put your mind at ease over the summer. If you'd like assistance planning your fall program launch, please don't hesitate to reach out to your WWP Coach or email [WWP Ministry Support](#).

Have a wonderful summer!

Blessings in Christ,  
The WWP Team
