

ASHA 2024 exclusive

Start a 14-day free trial and get 50% off your first 4 months

Limited time offer. Expires on December 8, 2024.

“It has really helped save me time. Now I can focus on patients and growing my practice. I didn’t realize how much of my time was being eaten up until I made the switch to SimplePractice.”

Dr. JoAnne Berns
Speech-Language Pathologist, MS CCC

See the power of simple

With hundreds of free resources and articles written by clinicians like you, there’s plenty more to discover.

Scheduling

Calendar management
Stay organized with calendar sync, advanced filters, color-coding, multiple time zone options, and out of office blocks.

Appointment reminders
Reduce no-shows by sending appointment reminders via text, voice, and email.

Documentation

Notes
Access a library of customizable templates to make forms and notetaking simple.

Paperless intakes
Customize your intakes then send them to clients electronically.

Communication

Group Appointments
Quickly schedule appointments, document notes, and bill clients for a session with up to 15 clients—all within a single appointment.

Client Portal
Centralize your client communication with a secure, online portal.

Virtual Appointments

Telehealth
Offer HIPAA-compliant video appointments for individuals with screen-sharing and whiteboarding.

Group telehealth is available as an optional add-on.

Billing

Claim filing
Create, submit, track, and reconcile insurance claims all in one place.

Credit card processing
Using bank-level security, save and process clients’ payment information.

Reporting

Business reports
Stay up to date with reports on income, outstanding balances, appointments, notes, and claims.

Clinical reports
Monitor clients’ progress easily with SOAP note templates that let you write notes while reviewing client history.

Better care for clients

Empower clients to manage their care with our Client Portal, available via app and computer.

- Request appointments online
- Upload documents before sessions
- Join telehealth sessions
- Automate online payments
- Send secure, HIPAA-compliant messages
