## The New 365 Data Science Journey in a Nutshell

365✓

# HOW TO LEARN DATA SCIENCE AND HAVE FUN

Rated as Excellent on  
**4.9/5** ★ Trustpilot

Nabil Mahamad Hanif

**I am a beginner in programming and have...**

I am a beginner in programming and have used 365 Data Science and, speaking for myself, the progress I have made so far is incredible. I can now code ML related stuff. Unthinkable for a guy with no background in computer science. Kudos to the 365 team! Keep them coming, lads!

Ahmad Zakaria

**Best Platform for Data Science**

So, I was searching for quality, well-organized contents for Data Science. After looking at many sites, I finally ended up on the 365 Data Science website. Guys, believe me, I have never seen any course build-up this well-organized. I'm totally grateful and thankful to the 365 team. It's helping me become a Data Scientist and I'm loving it. Enroll in any of their courses, you won't regret it.

Monira Akter Laboni

**Bundle of Joy**

I was looking for a complete package for learning Data Science from scratch to an advanced level, but had not found any suitable one. In my quarantine days, while googling, I found this tremendous bundle of Data Science courses where the course curriculum and the contents amazed me. Thank you, 365 Team, for making such organized and beautiful course contents for us.

## How Does the Training Work

The 365 Data Science program offers an all-encompassing framework for studying data science, whether you're starting from scratch or looking to upgrade your skills. And the new gamified platform is designed to make your learning journey engaging and rewarding at the same time. Work around your own schedule, set your goals, and achieve the results you want!

### Career Tracks

Embark on a pre-established data science career path, choose the electives that best suit your needs, and master highly sought-after data skills.

### Practical Exams

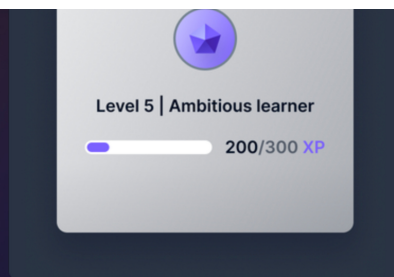

Put your newfound data science knowledge to the test with the practice, course, and career track exams.

### Certificates of Achievement

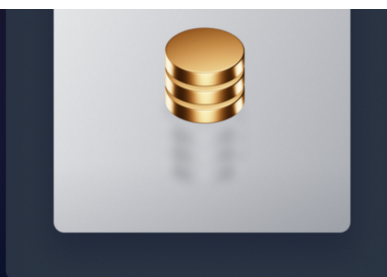

Prove you are a capable data science professional by earning a certificate recognized by employers far and wide.

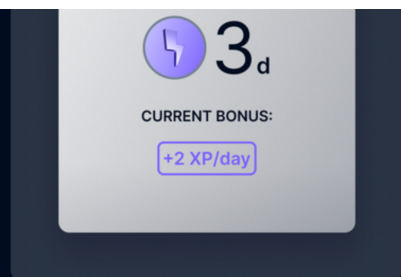

## XP and Levels

Collect experience points and work your way up the levels to achieve the ultimate goal – becoming an accomplished data scientist.

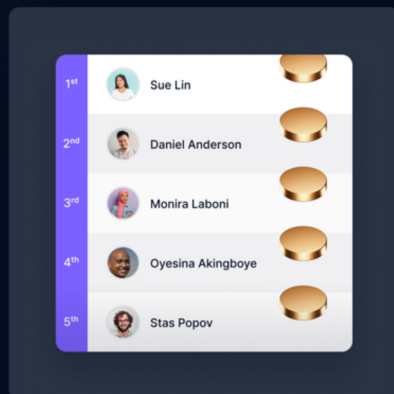

## In-app Coins

Earn coins as you learn and exchange them for special awards that will help you stay on track on your data science journey.

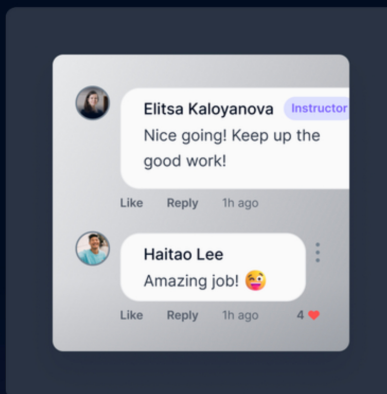

## Hot Streaks

Study multiple days in a row to gain XP and be rewarded for your efforts – the longer the streak, the better the rewards.

## Competitive Leaderboard

Rise in the weekly ranks through XP and blow the competition away with your relentless determination to climb to the top.

## Newsfeed

Celebrate your achievements by sharing them with the community of other aspiring data scientists and expert course instructors.

## Collectible Cards

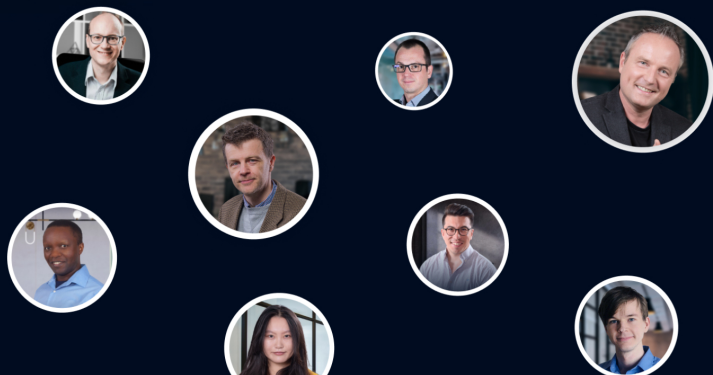

Exchange the in-app currency to acquire hand-drawn cards of celebrated data science pioneers that unlock unique benefits.

## Get Data Science Training from Industry Experts

A great learning experience is only as good as the teaching! Leverage the knowledge, experience, and industry insights of data science professionals from world-class companies.

Trusted by ORACLE amazon

## Travel Down an Expert-led Learning Path

Build your data science skills from the ground up. From the very fundamentals to the most advanced topics, our all-in-one training is perfect for individuals who want to start, swap, or strengthen their data science career with the most in-demand skills and technologies in the industry.

### Module 1

### Module 2

### Module 3

### Module 4

## Data Science Fundamentals

This module is optimized to help you develop a strong foundation for a data science career. It dives deep into the core principles of probability, statistics, and mathematics necessary for building machine and deep learning models further in the program. You will start working with data and learn how to visually present the results of your analyses.

## What Do Our Graduates Have to Say About 365 Data Science?

Vikesh Reddy Nallamilli

**365 Data Science Program is mind...**

The 365 Data Science Program is mind-blowing if you are new to the Data Science field and eager to learn the basics. It lays a great foundation to your knowledge on Data Science. The stuff they explain in the intro course is a great source of information. You don't want to miss this one.

Rodrigo Mendizabal

**Incredible learning program**

I found this program to be very well structured. You have everything you need to start in the data science field, very well explained and with excellent exercises for one to practice. You will not only not get bored at all, but you will also learn a huge load of stuff. Fully recommended.

Stas Popov

**Worth every penny!**

Worth every penny! I knew barely anything about data science before this course, and now I am confident in my skills. There are many sections on different topics - from the very basics to advanced things. By the time of completion, I am confident in my skills and recommend it to everyone!

Maher Nabeel

**365 Data Science is one of the best...**

365 Data Science is one of the best resources to learn the concepts and tools to become an aspiring data scientist. I would recommend it to any beginner.

Amrouni

**The 365 Data Science program is the Best!!!**

The 365 Data Science program was excellent. It does meet my expectations 100%. I do thank the 365 Data Science Team for putting this great work together in one package & with a very reasonable price. Hands down, you are the best! Please, keep this great work up!

Oyesina Victor Akingboye

**I FOUND A TREASURE DURING COVID**

This course stands out as Excellent. As an HR Professional who wants to major in Analytics, I found the learning experience so exciting. The instructor made learning fun! I will recommend this to everyone out there.

harshita sharma

**The 365 Data Science program is great...**

The 365 Data Science program is great for beginners. It gives in-depth knowledge and clears every concept. After every lecture, some exercises are given for students to complete for practice, and solutions also. I would highly recommend this program to everyone who wants to be a data scientist and brush up their skills.

Klodian Xhini

**Excellent experience**

Excellent courses, excellent instructors, and overall a great experience. I learned a great deal from these courses.

Amin Bt

**The best Data Science courses out there !!**

365 Data Science gives the best data science courses out there! It's really helpful, the videos come with exercise files and quizzes to test your skills at each module, to determine your level. You can learn at your own pace. Also, the Q&A section is really helpful and they give you an answer quickly!
