**Global Investment Firms use
Vhayu Velocity.** The numbers
speak for themselves

When the market's moving fast, your trading systems need to move faster. That's why eight of the top ten global financial investment firms use Vhayu Velocity™. It was designed specifically for mission critical management of real-time market data. And it's the only CEP solution that integrates stream processing with a historical tick database – because to make sense of current markets, the smartest firms learn from the past.

The Market is Data™
