Permanent Tattoos

If a tattoo is what you are looking for, drop on by and talk with their experienced **tattoo artists**. You can schedule a free consultation for guidance on the best design for you and the best location on your body to place it. Their talented artists can also design your tattoo for you, based on your ideas and vision and are happy to answer any questions you have about the process and maintenance of your new tattoo.

Cosmetic Tattoos

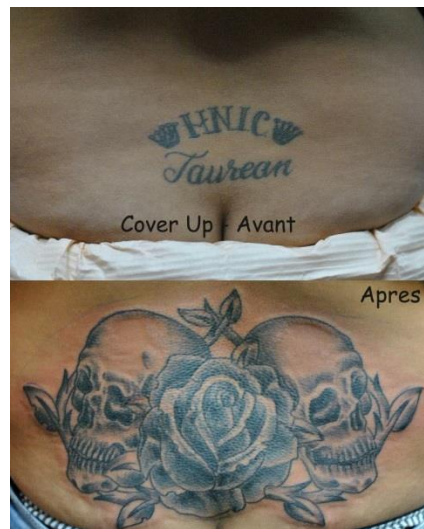

Cosmetic tattooing and **permanent makeup** are becoming increasingly popular to enhance your natural facial features and eliminate the need for daily make-up application. Ask about Adrenaline's services for:

- Eyebrow reshaping
- Permanent eyeliner
- Full lip color
- Colour correction
- Eyelash enhancement

Tattoo Cover-Ups

Are you stuck with a permanent bad decision tattooed to your body? Do you have an outdated, poorly executed or just plain ugly tattoo that you want covered up? Perhaps you even have the name of an ex-love that you want hidden. Many tattoos can be neatly and perfectly covered up with a larger, more impressive design, so book a consultation with Adrenaline and see what they can do for you.

Tattoo Removal

Although tattoos are increasing in popularity, there are just as many people who have decided they want to erase any sign of their early tattoos altogether. Tattoos

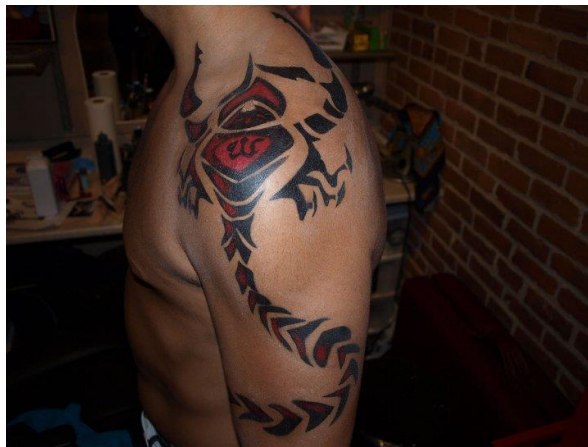

are created by injecting coloured pigments into tiny holes made in the skin, and the results are permanent despite having been done by a professional or an amateur.

ADRENALINE'S LASER TATTOO REMOVAL CAN WIPE YOUR SLATE CLEAN

Pulses of light from a laser are directed onto the tattoo to break up the pigment. How it works is that over the weeks following each treatment, macrophages in the body eliminate the pigments that have been destroyed. Generally, several treatments are needed to get rid of the entire tattoo.

Temporary Tattoos

For those of you who may not be sure of the design you want, who want to try out your new tattoo without making any permanent decisions, or simply want the fun of having a different tattoo for every occasion, Adrenaline does temporary tattoos as well. From **body paint, to airbrushing to henna**, Adrenaline can accommodate all your needs without the long-lasting effect.
