

PROJECT
STUDENT ORGANIZATON

A PROPOSAL BY
ELIZABETH ZENDER

FUNDING PROPOSAL

JUNE 2023

EXECUTIVE SUMMARY

- Our ninth and tenth grade students need tools for success. After two years of conversations, we, the ninth and tenth grade teams, have decided that supplying students with academic planners is the best starting point.
- Academic planners will help educators promote accountability, organization, and planning in our classrooms.
- Giving students tools for success is a priority and educators should aid in the promotion of sustainable responsibility practices.

THE NUMBERS

- There are around 500 ninth and tenth graders at South St. Paul High School.
- The estimated cost of planners for 500 students is \$1600.
- If all goes well, the hope is to expand the program into the eleventh and twelfth grade students as well.

TIMEFRAME

- Initial Meeting: 06/14/2023
- Purchase Date: 08/01/2023
- Post-Implementation Data: 06/14/2024
