

***THE RUINED KING***

# **VIEGO**

---

Once ruler of a long-lost kingdom, Viego perished over a thousand years ago when his attempt to bring his wife back from the dead triggered the magical catastrophe known as the Ruination. Transformed into a powerful, unliving wraith tortured by an obsessive longing for his centuries-dead queen, Viego now stands as the Ruined King, controlling the deadly Harrowings as he scour Runeterra for anything that might one day restore her, and destroying all in his path as the Black Mist pours endlessly from his cruel, broken heart.

# VIEGO ABILITIES RUNDOWN

## Ability Resource - Essence

This champion uses Essence to cast their abilities. Essence exists in a medium pool and regenerates by killing enemies.

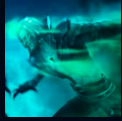

## Passive - Spectral Pursuit

Viego emits a storm of Black Mist around himself, Camouflaging within as a wraith when out of combat. In place of his trinket, he sends a Mist tendril to seek out and reveal the nearest or a chosen non-stealthed enemy champion in a large radius around him, gaining Move Speed towards them as a wraith.

## Q - Blade of the Ruined King

Viego's attacks passively deal bonus percent current Health damage On-Hit. When cast, he impales enemies in a line with his zweihander, dealing bonus magic damage and stealing Move Speed from the first enemy hit. Blade of the Ruined King is treated as an Attack.

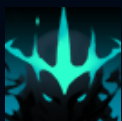

## **W - Wicked Grasp**

Viego passively siphons Health and Healing from low Health enemies exposed to his Black Mist. When cast, he dashes to a target location, damaging, Stunning, and weakening the nearest enemy before him on arrival. He can dash further and through terrain while in wraith form.

## **E - Heartbreaker**

Viego gains a decaying Shield and plunges his zweihander into the ground, causing a destructive shockwave that damages and knocks away nearby enemies based on proximity. The weakest enemy in the epicenter instead takes massive execution damage, which is treated as an Attack.

## **R - Ruination**

Viego unleashes a Harrowing, immensely expanding his Black Mist storm, Blinding enemies inside, and resurrecting allies and enemies slain in his presence as wraiths that attack nearby enemies. Wraiths heal for a portion of the damage they deal to enemies. Enemy champions and large monsters resurrect as greater wraiths.
