Smart Campus Hackathon '23, SRMIST

- Ranked among the top 5 teams out of 400 participating teams in the Smart Campus Hackathon '23.

iOS App Prototype Design and Development,

iOS App Development Centre, SRMIST

- Selected among the top 100 students in the Computing Department at SRMIST.

Performance Based Scholarship 2022-23, SRMIST

- Achieved the top rank in the IT department, securing the 1st position among peers.

Certificates

C++ Programming 📄 (Great Learning)

Java Programming 📄 (Great Learning)

C Programming 📄 (SRMIST, PURDUE University & IEEE)

Android Development 📄 (Coursera)

Kotlin for Java Developers 📄 (Coursera)

Data Structure and Algorithms 📄 (Great Learning)

TCS iON Career Edge - Young Professional 📄 (Cert ID: 119854-21532993-1016)

Skills

Software Development

Android (Kotlin/Java) | iOS (Swift) | Web (HTML/CSS)

Backend Technologies

Database (Firebase) | API (Rest API)

Programming Languages

C++ | Java | C

Soft Skills

Communication, Team Work, Leadership

Experience

Hackathons

- **SRM Smart Campus Hackathon** 📄 - SRM IIEC & Institutions Innovation Council (Ministry of Education Initiative) - Top 5 Teams
- **DATA SCIENCE HACK'22** - School of Computing SRMIST, The Enigma Club, and The Block Chain Club SRM - Devfolio

App Development Team Member, Gen-Y 📄

04/2023 - present

- Developing cross-platform Applications
- Mentoring and Organising Hackathons

Committee Member, Directorate of Student Affairs

09/2022 - present

- Effective crowd management
- Handle different types of situations calmly and efficiently

Organiser

- **Designathon PixelIX** 📄 - UI/UX Masterclass organized by Team Gen-Y.
- **Layer Hackathon** 📄 - conducted at the SRM institute of Science & Technology, by Blockchain Club SRM and Team Gen-Y.

Projects

Youtube Clone App, Android Studio, Java 📄

- Google login and profile retrieval
- Firebase Implementation
- Upload videos and stream them

FlashChat App, Xcode, Swift 📄

- Implemented core features such as user registration, login and messaging
- Integrated with third-party services such as Firebase

MusiMax App, Android Studio, Java 📄

- User and admin login
- Google, Phone and Email login
- Firebase data retrieval and authentication

Health Care App, Android Studio, Java 📄

- Patient and Doctor Login using Firebase
- Online Consultation, Prescription and Medicines
- Book Appointments online to save time
- Show upcoming appointments and bookings

CampusSpace App, Android Studio, Java 📄

- Problem statement - Centralized Common facility reservation and availability
- Our team was honored to be ranked among the Top 5 teams.
- Designed intuitive interfaces for halls, auditoriums, classes and labs booking.
