

PHILIPS

Partner with Philips and SYNEX for Professional Display Solutions

Think digital signage is complicated and expensive? Not anymore. Gone are the days of complex, costly solutions that are out of reach for many small and medium businesses. Today, digital signage is as simple as inserting a USB, allowing even the smallest business to get started without a media player.

From menu boards in quick-serve restaurants to wayfinding screens in shopping centers, digital signage spans a range of uses and industries. Don't miss out! Tap into this lucrative market with Philips Professional Display Solutions, now available through SYNEX.

Why Philips?

When it comes to display vendors, you have a lot of options. So why choose Philips? With a rich history in innovation, Philips is a global leader in high-quality products, intuitive designs, and practical features. It's this success that makes Philips the fastest growing player in the market and the trusted provider of a major airline.

Philips also delivers peace of mind with a three-year advanced replacement warranty for wall displays and a four-year advanced exchange warranty for desktop displays. From the desk to the wall, Phillips and SYNEX can meet your customers' display needs.

Opportunities include:

- Menu boards
- Wayfinding screens
- Lobby signage
- Boardroom displays
- Self-service kiosks
- And more

The SYNEX Difference

At SYNEX, we're with you every step of the way. From financing options to help you close more deals, to a dedicated team offering pre-sale design and post-sales support, we ensure successful deployments and satisfied customers. We also have the inventory on hand to meet your needs and the ability to hold stock specific to deals.

Help your SMB customers harness the power of digital signage with SYNEX and Philips. Email digitalsignage@synnex.com today to get started.
