Mr. Tono explained that attack by monsters & aliens become more frequent because the construction of the intergalactic highway had been completed. He should act by himself with space police technology that is able to give many kinds of power to use. However, his carelessness when took the power to bring to earth resulted in he cannot use his power because it's not suitable with him. He then asked Roni to replace him, which Roni agreed to. Sadly, the failure during the power transfer process made Roni only able to use one technique to defeat his enemy, by stomping his feet and right hand which was covered in purple flames. In his battle against monster attacks, Roni as *Pamungkas* meets 2 other superheroes, *Semanggi* (Clover) and *Narasi* (Narration). The identity of *Semanggi* and *Narasi* turns out to be Roni's school friends, Anisa and Angga. They met and immediately recognized Roni as *Pamungkas* from his unique hair. They then asked Roni to meet them after school. Anisa and Angga explain their abilities, namely *Semanggi* who has the "coincidence" power where almost all the monsters she meets are defeated by coincidence, and *Narasi* with the "narrative" power who attacks with sound waves from his narrative. Roni questioned how they could survive to become superheroes with such strange-looking powers. Then, suddenly a gigantic monster appeared to attack the city. Roni, Anisa, and Angga rushed to the monster's location. Even though they just met, the cooperation of the three of them and the coincidence factor succeeded in defeating the giant monster. The three of them then decided to form a superhero team to cover each other's weaknesses.
