SEASON'S GREETINGS

NARNIA, TAKE NOTES

STEP INSIDE A MONTECITO
JEWEL BOX CLOSET

WATCH THE FULL CLOSET TOUR

Lauded LA Closet Design founder Lisa Adams creates bespoke, immersive wardrobes to write home about. With Kardashian closet credentials to her name, her full-fledged renovations give sophistication a new scope, upscaling—and uplifting—the home’s “most fashionable yet least understood room.” A recent project, nestled in a grand Montecito home, speaks to the finer things in life: below a dark marbled ceiling, black rolling ladders glide seamlessly along shelves, granting access to elaborate custom cabinetry for the client’s jewelry, scarves, belts, and hats. A pastel pink loveseat sprawls across the backdrop of a color-gradient shoe display and art deco accessories, while an impressive array of Chanel handbags reveals a Francophile’s sanctuary. The interactive space is as much a cocktail lounge as it is a closet, with glamor at center stage, but Adams’ client-based aim is for simplicity: arrange and enjoy what you already have.*
