

# TRAVIS MWANGI

## Architecture Student

I am a student currently studying architecture at the University of Nairobi seeking to broaden my spectrum by having hands-on experience in the architecture and construction world. My goal is to learn, through observation and engagement, how the industry is outside the four walls of a classroom and to see the real-life representations of the knowledge I have learnt thus far in that same classroom.

📍 | Nairobi, Kenya

## Education

### ● Bachelor of Architectural Studies / Architecture

The University of Nairobi  
4th Year Student  
September 2021 - to date

### ● Kenya Certificate of Secondary Education

The Alliance High School  
January 2017 - April 2021

## Software Skills

Archicad  
Autodesk 3ds Max  
Adobe InDesign  
Adobe Photoshop

## Experience

### ● Intrinsic Architecture

Architectural Intern

July 2023 - Sept 2023

## School Projects

### ● HOUSING PROJECT

STAFF HOUSING

Nov 2024- to date

Residential housing for a gated community within a public institution in an urban area.

Design of a proposed modern environmentally conscious staff housing scheme for lecturers from the Faculty of Architecture.

### ● INTERIOR DESIGN PROJECT

EXHIBITION GALLERY

Oct 2024

A display/ exhibition gallery of its history and the achievements of its staff and alumni. The objective is to have a lasting place for exhibition of outstanding research of the university community and the public.

### ● LANDSCAPING PROJECT

REVITALISED PARKING LOT

Sept 2024

The redesign of part of the University of Nairobi parking from the current use, by providing a serene institutional open space that accommodates all the users' activities.

## MODEL JUNIOR SECONDARY SCHOOL

Voi, Taita Taveta

Mar 2024 - June 2024

This project was keen to capture the county's identity and demonstrate that thoughtful and sustainable architecture can positively impact the community's well-being.

## MIXED USE DEVELOPMENT

Nairobi CBD

Nov 2023 - Jan 2024

The aim was to take advantage of new planning parameters to maximise return on investment and in the process, identify and revitalize Jeevanjee Gardens. Thereby, injecting new life into the urban park neighbourhood.

## GUEST VILLA FOR VISITING PROFESSORS

Chiromo, Nairobi

Oct 2023 - Nov 2023

The project's aims were:

- to introduce volumetric space interrelationships, design of facades/ fenestration logic etc.
- to explore the organization of various functions both horizontally and vertically within a building.
- appreciation of the human scale.
