RANGE
200'
ACCURACY
±1/8"/100'

Model #5700-0800

PRODUCT DETAILS

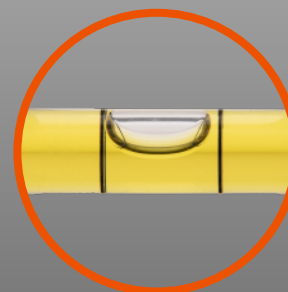

JLX® products are designed for professional tradesmen, when only the best will do. These 8" billet levels are CNC-machined from a solid block of aluminum and feature pitch, 0°, 30°, 45° & 90° vials. The 5700-0800LZR is equipped with an ultra-bright green laser - 4x more visible than red beam lasers for the ultimate jobsite visibility.
