There is nothing like the unconditional love of a pet.

October 27, 2020

Dear Ms. Johnson,

Aquaman, age two, was a stray dog who had been abused by his former owner. He was rummaging around the garbage outside of a home in San Antonio, TX. The homeowners could not take care of Aquaman but did not want him euthanized at a shelter. Aquaman was taken to the Animal Defense League to receive the medical attention he needed. Through the Animal Defense League, Aquaman made a swift recovery and was able to be put up for adoption.

The Animal Defense League is in San Antonio, TX. It is one of the largest no-kill shelters in the city and the state of Texas. Thousands of animals are saved each year from being euthanized. Aquaman was able to receive the proper care that he needed. He has been able to receive love from everyone and loves playing in our dog park.

With your help Ms. Johnson, we can help continue to save animals all over the state of Texas. We can help provide them all the resources they need to find them a forever home. Please visit our website www.adltexas.com to donate. It is tax-deductible, and we'll send you a receipt.

Aquaman received a second chance at life. All stray animals that end up at the Animal Defense League receive a second chance. These animals need the Animal Defense League. Please help us provide a future for these animals.

Sincerely,

Maria Gomez

Marketing Director
