

Kinkaid Private Nursing Care offers premium at home wound care in the comfort and privacy of your own home. We provide customized, luxury wound care treatment at home, maximizing healing while reducing the risk of infections and other impediments to recovery.

At Kinkaid Private Nursing Care, we understand that effective wound care requires specially trained and educated nurses and case managers who can ensure your loved one is comfortable and at ease while healing. Because of this, we go out of our way to make sure all aspects of your care are covered.

## What is Home Wound Care?

Home wound care helps people recover from injuries that break the skin or compromise its integrity. Whether a wound is the result of an injury, disorder, or surgery, wound care can be challenging to treat because of underlying health conditions, the need to keep wounds free of infection, and the complexity of regularly caring for wounds.

Our team provides the best luxury concierge wound care available in California.

## In Home Wound Care Services

Kinkaid Private Nursing Care provides in home wound care services for the following conditions, as well as others:

- Wounds caused by trauma
- Neuropathic wounds
- Diabetic wounds
- Burns
- Non-healing wounds
- Surgical wounds and incisions
- Arterial ulcers
- Venous stasis wounds
- Pressure ulcers (decubitus ulcers)
- Slow healing wound

Our expert team of wound care specialists will:

- Complete debridement (removing dead skin and tissue to speed wound healing)
- Change wound dressings
- Develop an individualized wound care plan
- Educate patients and caregivers on the wound healing process, as well as complications, such as infections
- Assess hydration, nutrition and activity levels
- Address underlying issues that may affect wound healing

# Benefits of In Home Wound Care

Receiving wound care at home has many benefits compared to visiting a wound care facility or clinic, including:

**Convenience.** With Kinkaid Nursing Care providing the highest quality of wound care in your home, you do not have to deal with the inconvenience of arranging transportation to and from a clinic or doctor's office.

**Comfort:** Travelling even short distances can be uncomfortable, even painful when you have a wound. Healing tissues are delicate and require specialized care to prevent them from being re-opened or damaged. At home wound care allows you to eliminate discomfort and reduces the risks of aggravating a healing wound, as you never need to leave your home to receive top-level wound care.

**Improved healing.** With an individualized care team, you get focused attention and regular monitoring that addresses your specific wound management needs, allowing for accelerated healing processes.

**Reduced secondary infections.** As well, by avoiding clinics and doctor's offices, you will greatly reduce your chances of being exposed to infectious diseases that could slow or impair your wound healing.

**Professional support.** Another benefit of at home wound care is knowing you have the support of a wound care team made up of professional nursing staff that will be with you and your loved one during each step of your healing journey.

## Who Provides Our Care?

Our in home wound care is provided by Kinkaid's team of in-home nurses with decades of experience. Our nurses are trained to provide high-quality care in a kind and professional manner, while also ensuring excellent communication with families.

## Los Angeles In Home Wound Care

Our in-home wound care is provided throughout the Los Angeles area. Specifically, we cover Los Angeles, Beverly Hills, Bel Air, Brentwood, Westwood, Pacific Palisades, Santa Monica, Malibu, Holmby Hills, Cheviot Hills, Culver City, Beverly Glen, Beverlywood, and surrounding cities in California.

## Why Choose Kinkaid?

Kinkaid Private Nursing Care offers luxury concierge in-home services to patients looking for the best and most intensive at home wound care on the market. We only take on a few clients at a time, so we always provide specialized, evidence-based care to meet the needs of each client.

Additionally, not only do we specialize in premium in home wound care, but we also practice proper management techniques to ensure your care is organized, efficient, and best for *you*.

Overall, we create a concierge medical experience for each of our clients. Our approach starts with building relationships with each of our clients and their families; we get to know you in the comfort and privacy of your home to understand your exact needs. We then create a personal at home wound care team for you consisting of at least a clinical nurse specialist, clinical case manager, and care coordinator. Our compassionate teams are clinician-led and available to you 24/7 to provide unparalleled service and attention to detail.
