

# COPD Home Care

Being diagnosed with Chronic Obstructive Pulmonary Disease (COPD) can be a distressing and anxiety-provoking time, especially if the specter of re-hospitalization looms, but Kinkaid Private Care can help you keep your loved one comfortably at home through our COPD Home Care Service.

## What is COPD?

COPD includes emphysema and chronic bronchitis, progressive inflammatory lung disorders that affect [over 15 million people](#) in the US. COPD reduces a person's ability to get enough oxygen into their bodies and causes these [symptoms](#):

- A chronic productive cough
- Wheezing
- Fatigue, often debilitating
- Frequent or chronic respiratory infections
- Shortness of breath during activities
- Tightness in the chest
- Excessive mucus production
- Swelling in the feet and legs
- Blueness in the lips or fingernails (cyanosis)
- Impaired cognition

There is no cure for COPD, but with COPD care at home, your loved one can remain independent at home while receiving the best [in-home luxury care in California](#).

## What is COPD Home Care?

COPD home care brings pulmonary care services and treatment professionals to your loved one in the security and privacy of their home. Luxury home care COPD services from Kinkaid Private Care provide the treatments and assistance your loved one with COPD needs to stay at home, while reducing unnecessary hospitalizations.

Our COPD home care services include:

- Professional nursing care
- Patient, caregiver and family education

- Physical therapy
- Respiratory therapy, including oxygen therapy and breathing treatments
- Education about medications, breathing exercises, and managing flare-ups
- Medical equipment as needed

## Our Home Health COPD Services

COPD can often be managed as well at home as it can be in a hospital, as long as the patient is well-supported and assisted. Kinkaid Private Care luxury COPD home care provides that assistance, which includes:

- Nursing care
- Support for medication compliance
- Monitoring the patient for signs of flare-ups
- Tracing and managing COPD symptoms
- Education about medications, breathing exercises, and other self-care topics
- Medical equipment, including nebulizers and inhalers
- Oxygen therapy
- Physical therapy

## The Goals of COPD Care at Home

At Kinkaid Private Care, the goals of COPD care at home are simple. We help your loved ones stay as healthy as possible ensuring the highest degree of comfort and well-being within the patient's own home, while working to eliminate unnecessary hospitalizations.

Our services also assist in:

- Slowing the progression of COPD
- Preventing opportunistic infections by improving general health
- Maintaining and improving the patient's quality of life
- Assisting the patient in learning how to better self-manage their condition
- Making the home environment stay safe and healthy

COPD home care allows your loved one to avoid the stress and inconvenience of travelling for physician's and clinic visits, while receiving premium luxury care at home. Our team of professionals also ensures a seamless continuity of care by working with your loved one's therapists, physicians, and other medical professionals

### Why Choose Kinkaid?

Choosing luxury COPD [in-home nursing care](#) allows your loved one to receive individualized care based on their unique needs. Kinkaid Private Nursing Care offers premium in-home COPD services to patients looking for the best and most intensive COPD in-home care on the market.

We only take on a few clients at a time, so we always provide specialized care to meet the needs of each client. Additionally, not only do we specialize in premium home nursing care, but we also practice proper management techniques to ensure your loved one's care is organized, efficient, and best for you.

We create a concierge medical experience for each of our clients. Our approach starts with building relationships with each of our clients and their families; we get to know you in the comfort and privacy of your home to understand your exact needs. We then create a personal care team for you consisting of at least a clinical nurse specialist, clinical case manager, and care coordinator. Our compassionate teams are clinician-led and available to you 24/7 to provide unparalleled service and attention to detail.

Contact one of our nurse specialists by calling [866-337-4596](tel:866-337-4596) or filling out our confidential [online form](#).
