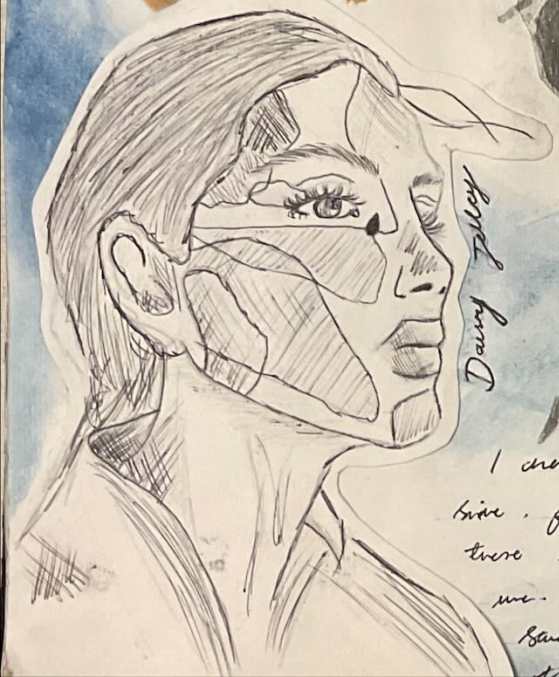
Observational Studies

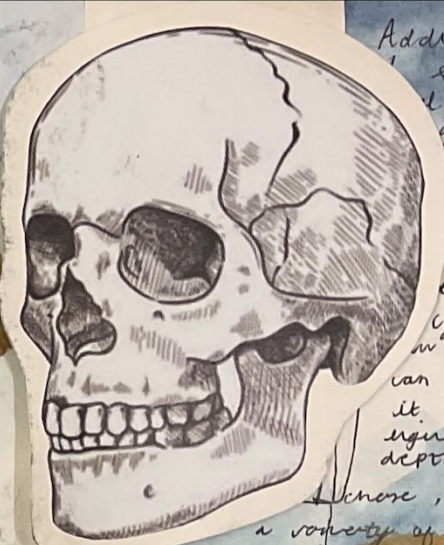
- SECONDARY -

Wilson Smith



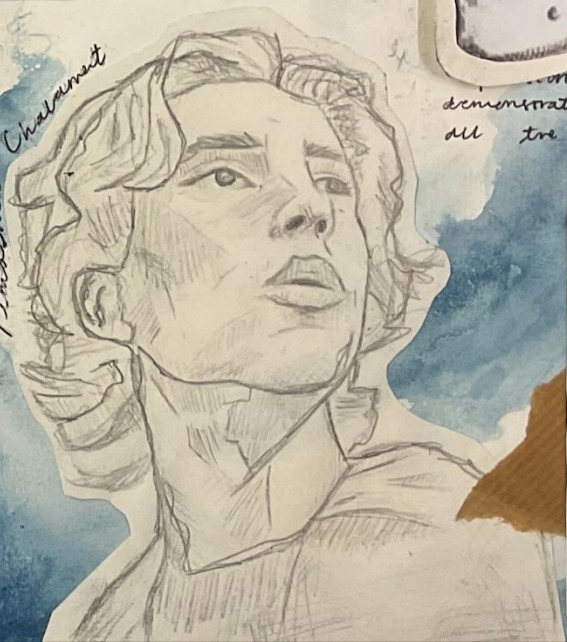
Darryl Peart

I chose to study and draw profiles, side, front and 3/4 turns. I chose these as they are specific to portraiture. As well as this, I could study the difference in shade from the different angles.



Additionally studied l research gerent ait forms facial tions. I dred t position cy influence n a portrait can look, as it effects the lighting and depth.

hese, I decided a variety of angles, ...ons and lighting. The images demonstrate the dra... contrast in all the images, to help with my drawings.



Timothée Chalamet
