

## **PRIVATE LABEL BEAUTY INDUSTRY EXPERTS LAUNCH A NEW SITE TO SUPPORT ENTREPRENEURS**

For Immediate Release

Onoxa is carving its way through the private label world with their new website launch. “We wanted to create a new shopping experience by making it easier and faster for business owners to stock up their brand.”

The new website has the right amount of everything entrepreneurs are looking for, such as a new pricing system, a new design request form to get the exact product label they want with a new testimonial section to provide customer’s their guaranteed quality from existing client success stories.

“The whole shopping experience is different,” says Onoxa. “Customers are no longer limited to small bundle kits and can have a better ecommerce experience.” Before Onoxa, had a label customizer with limited design options and templates. Now, there’s a new Label Design Request Form that offers free label design using selected fonts and colors to complete after checkout for a custom-branded label tailored to your business.

Not only is their new website set up much simpler, it’s easier to keep your business growing. The product’s minimum order quantity is now 6 units, instead of 24, making it faster to restock products on shelves. With the minimum quantity smaller, the products now have individual pricing with discounted pricing charts and unique product descriptions to now browse through.

With their new launch, Onoxa offers 16 different high quality formulas, 6 being new luxury products to meet industry trends and customer demands. “We had our research and development team analyze the beauty industry’s top selling products, and create something that’s vegan, high-quality and effective for our customers to offer as their brand.”

If a beauty professional is interested in building their brand with skin and hair care products, [Onoxa](#) is here to help. Creating a profit center in just a few steps on their website easy, efficient and affordable and rewarding to launch your skincare brand.
