

Global Payouts

Simplify payments wherever you do business

As a global business, paying your overseas suppliers, staff or partners in their local currency can be challenging and expensive.

You need a tool and a partner that makes payments simple, seamless and hassle free.

Buckzy's Global Payouts account enables you to make those payments across the globe faster than legacy rails and in real-time in over 40 markets.

Using Global Payouts, you can:

- Get real-time exchange rates through our currency converter
- Leverage bulk or single payout functionality
- Decrease administrative burden through our automated solution
- Hold & manage multiple currencies without requiring pre-funded balances

Buckzy's Global Payouts help you:

Keep transactions and funds safe and secure

Get fast & reliable PSD 2 compliant transfers through strong customer authentication, fraud monitoring, blocking & alerts

Leverage an instant global payout network

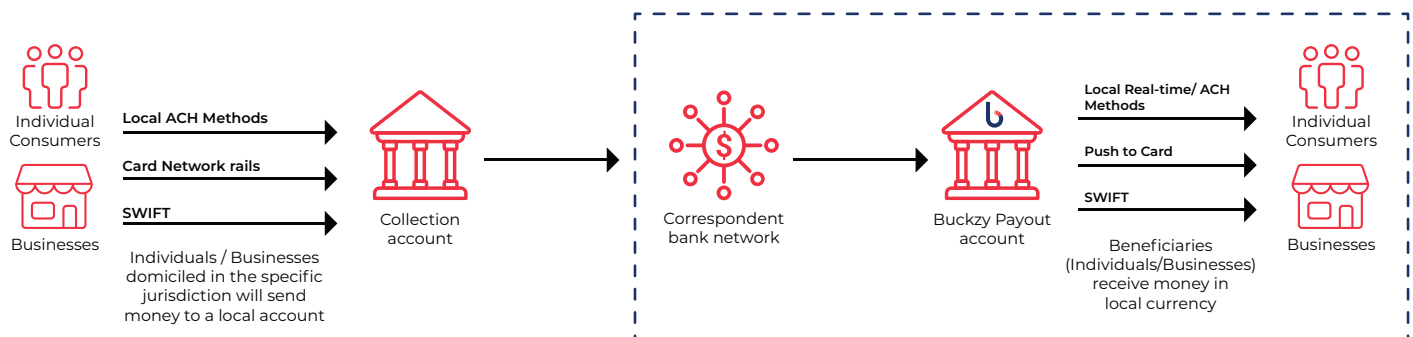

Use our fast-growing real-time payments network to make payouts in over 40 countries

Improve visibility on FX fees

Book spot FX contracts to minimize conversion fees and get the currencies you need, when you need them

How payouts work:
