

DISCOVER WHAT WE HAVE TO OFFER

BAYCARE CLINIC® PAIN & REHAB MEDICINE

When a patient's lifestyle is disrupted by pain, injury, or significant illness, BayCare Clinic Pain & Rehab Medicine focuses on helping them regain control and resume their daily activities.

BayCare Clinic Pain & Rehab Medicine providers integrate the most effective, proven medical approaches to address each patient's unique concerns. They don't simply treat pain. They delve further, with a focus on finding and eliminating the cause.

"Made me feel so much better and it's been a long time. I was even unprepared to feel as good as I did. It made that much of a difference all the way around."

- Patient testimonial

The pain and rehab specialists with BayCare Clinic manage care as part of an interdisciplinary team. We have a wide range of treatments, including acupuncture, therapy options, conservative non-surgical approaches, ultrasound guided injections, medication management and minimally invasive procedures.

The pain and rehab providers at BayCare Clinic have advanced expertise in many areas including, but not limited to:

- Back/neck pain
- Arthritis pain
- Joint pain
- Musculoskeletal disorders
- Work and sport injuries
- Spinal cord injuries

Our [referral system](#) creates a smooth, seamless pathway for you to connect with our providers on your patient's behalf. A simple registration is required, but the site is secure, allowing you to upload medical information and send images (such as x-rays) without worry. Once registered, you will only need to enter your username and password the next time you visit the site.

"I can get on a bike now and I can ride 20 miles or more and I can comfortably ride, get off and be comfortable after that. I don't have any after pain."

- Patient testimonial

Untreated chronic pain can have long-term implications. BayCare

Clinic Pain & Rehab Medicine specialists focus on determining and treating the physical causes of acute, subacute, and chronic pain. They foster a collaborative relationship with patients designed to better identify and treat the issues at hand.

BayCare Clinic Pain & Rehab Medicine providers begin with a comprehensive examination and review of previous treatments and diagnostic tests/images. There is a personal discussion to answer questions and identify any factors contributing to a patient's discomfort and inability to move.

"My God, what an immense relief from my pain. I had no pain, no pain whatsoever."

- Patient testimonial

Consider BayCare Clinic Pain & Rehab Medicine the go-to resource for pain management and therapy. We are committed to managing patients' health and treatment options.

BayCare Clinic is proud to partner with the Wisconsin Chiropractic Association and more than 100 chiropractors in northeastern Wisconsin to provide top-level musculoskeletal care to their shared patients.

Dr. Danqing Guo specializes in musculoskeletal ultrasound treatments for pain.
