

Make Plans Today to Celebrate CNA Week!

National Nursing Assistant Week is held on the third week in June. This year's 46th annual celebration will fall on **June 15 - 21** and the theme is **"We're Unstoppable."** Start planning activities now!

Here are a few ideas to say "thank you" to nursing assistants: 1) Conduct an awards ceremony for CNAs and invite the community. 2) Organize a poster contest on creating a community of caring. 3) Select teams of nursing assistants to conduct daily dialogues over the course of CNA Week. 4) Create a huge 5x8 poster of "thank you" notes from family members and staff, including pictures of nursing assistants, and post it in a prominent place.

Want more? Email info@cnatrainingandtestingcenter.com with the subject line: "CNA Week 2023" for the full list of "50 Ways To Say Thank You to Nursing Assistants!"

Connecting our network with opportunities!

Tell us about upcoming job fairs and hiring opportunities. Send us updated tear-off flyers for the new year. Drop off your swag and we'll happily distribute it to our CNA cohorts.

CNA Training & Testing Center is an American Heart Association authorized cardiopulmonary resuscitation (CPR) training site for laypeople and healthcare providers. We offer CPR training and certification on Fridays at 808B Oakfield Drive in Brandon (by registration only). Visit our website to sign up!

Our 4-Step CNA by Examination Route makes it simple to become a Florida licensed CNA. We fill a critical need and provide a solid launch pad to a promising future!

CNA Spotlight:
Shantavia

SHANTAVIA FINISHED NURSING SCHOOL AND LANDED A JOB WITH ADVENTHEALTH TAMPA!

When we last checked in with her, Shantavia had just graduated from Rasmussen University, finishing their nursing program in only 15 months. The journey was difficult, but with the support of her mother, Shantavia excelled and graduated with honors. Seeing her land her first RN job with one of Tampa Bay's healthcare leaders is so inspiring! We can't wait to see how her career grows from here!

CNA Spotlight:
Tyler

TYLER'S COMMITMENT TO PATIENT CARE IS MOTIVATIONAL!

Before he came to us, Tyler had already served five years in the Army and received his Bachelor's in Health Science. Now, his CNA license is helping him achieve his goal of becoming a Physician's Assistant. Tyler explains, "I wanted to work to improve the quality of people's lives. I was overweight for a good portion of my childhood, leaving me with self-confidence issues. When I lost that weight, I felt like a different person! I chose the medical field because it lets me give others that same feeling of freedom. To become the best healthcare provider I can be, I want to work my way up, learning the ins and outs of medicine. My CNA license puts me on that path. Along the way, I'll rack up direct patient care hours towards my grad school application."

Announcing a new partnership with South University!

With this partnership, our candidates for CNA & Phlebotomy will receive a 20% tuition discount on programs offered at South University's Tampa campus (some graduate programs exempt).
