Hi there,

## Important changes to your Xtra email.

We recently got in touch about changes to your Xtra email.

After nine years with Yahoo, we're bringing email home by switching your Xtra email to a new, local provider. But first we need you to update your email password and give your permission. It's important because we value your privacy, so without your permission, you'll lose all your emails, contacts and calendars – and nobody wants that.

So, if you haven't already, do it now. It's easy, just go to [spark.co.nz/email](http://spark.co.nz/email) to give your permission today.

## Your Xtra email address<es> won't change.

We're not about to change your Xtra email address<es> – it's just a new way to protect, manage and store your emails right here in New Zealand. Here's what you can look forward to:

### Local

Email looked after by NZ's leading email experts.

### Safe

Enterprise-grade security and multi-level spam filters.

### Fast

Superfast local servers move your messages in a flash.

## Give us your permission now at [spark.co.nz/email](http://spark.co.nz/email)

Remember, before we move your emails, calendars and contacts, you need to go online to update your password and give permission. It will only take a minute, so get onto it.

Better yet, do it now and you could win a \$100 Prezzy® card. We're giving two away every day until 17 October 2016, **so the sooner you give permission, the better your chances to win\***.

## More questions? We've got the answers.

If you've got any questions about your email, email security or anything to do with bringing your email home, you'll find answers at [spark.co.nz/emailchanges](http://spark.co.nz/emailchanges)

Thanks,  
The team at Spark
