## PROFILE

I am a designer who recently graduated from the XR Design program. Originally from Tampere and now residing in Helsinki, I have gained valuable experience working on various design projects over the past four years. I have also participated in several hackathons, one of which my team won with a navigation and social media application we developed.

Through my studies and project work, I have become accustomed to working in teams, but I am also comfortable working independently and taking initiative. I am fluent in both Finnish and English and always strive to develop new solutions with precision and careful consideration. I particularly enjoy work where I can see the tangible results of my efforts and contribute meaningfully.

My technical expertise includes Blender, Unity3D, Unreal and Adobe software, but I am quick to learn new software and technologies. I am calm and detail-oriented, which helps me remain focused and consistent throughout all my projects.

My dream is to build a career in 3D modeling, XR, UI/UX, animation, motion graphics, and game engines. This ambition led me to move to Helsinki, where I am now seeking opportunities to contribute my skills and passion to a design and development team. Additional information about my projects and achievements can be found on my portfolio website.

I am ready to take on challenges and engage in work that combines creativity, precision, and meaningful impact.

## **Skills Acquired During My Studies:**

- Application conceptualization
- Teamwork (Project Manager, Modeler)
- Fundamentals of space and object design
- 3D modeling and animation
- Lighting and texturing of 3D models
- Importing 3D models into game engines
- Creating interactivity through programming
- UI design for virtual and augmented reality applications
- Publishing content for virtual and augmented reality devices
- Pixel and vector graphics
- Motion graphics

- 360-degree video

## **WORK EXPERIENCE**

**2024–2024 (6 months)** Valovirta Design, Employee (Intern)

- Game Development, Design, Coding

**2021–2024 (3 years)** Helsingin Autopesu Oy, Employee

- Hand car washing, interior cleaning, and waxing

**2022 (2 months)** Rotterdam, Kappeli, Summer Employee

- Blocker, Bar staff

**2013–2014 (4 months)** Keskustekniikka Oy, Intern

- Assembling electrical cabinets & guiding exchange students in English

**2008 (4 months)** TasoWheel Oy, Assembler

- Assembling gearboxes

**2006–2007 (8 months)** Dunlop Hiflex, Warehouse Worker

- Hydraulic hose production, operating electric forklift

**2005 (3 months)** Bronto Skyline, Intern

- Electrical installations

**2004 (2 months)** Katsa Oy, Intern

- Maintenance and servicing

Additionally:

- Landscaping in Canada (2 months, 2005)
- Telemarketing, snow removal, ticket sales, coat check

## **EDUCATION**

- Metropolia University of Applied Sciences, XR Design, 2024
- Pyynikin Vocational School, Basic Degree in Information and Communication Technology, Electronics Installer, 2014
- Hervanta Vocational School, Basic Degree in Mechanical and Metal Engineering / Automation and Maintenance Training Program, Automation Installer, 2006

## **TECHNICAL SKILLS**

- **Windows:** Proficient
- **Blender:** Proficient
- **Unreal:** Proficient
- **After Effects:** Proficient
- **Substance:** Proficient
- **Illustrator:** Proficient
- **Premiere:** Proficient
- **Photoshop:** Proficient

- **Krita:** Proficient
- **Unity 3D:** Proficient
- **Reality Capture:** Proficient
- **3ds Max:** Adequate
- **ZBrush:** Adequate
- **MS Office:** Proficient
- **AI:** Excellent
- **Social Media:** Proficient
- **CAD:** Basic
- **Siemens S7:** Basic

### **LANGUAGE SKILLS**

- Finnish: Native
- English: Excellent
- Russian: Good
- Swedish: Basic

### **DRIVER'S LICENSE**

- Category B

### **MILITARY SERVICE**

- Parola Armored Brigade, Tank Driver/Infantryman, 2008 – 2009

### **HOBBIES**

- Pool billiards
- Gym
- Skateboarding
- Online gaming
