

DR.MERCOLA®

Air Purifier 450

with true HEPA filter

User Manual

Bring Nature's Purification Indoors

Thank you for purchasing Dr. Mercola® Air Purifier 450 with True HEPA Filter, a powerful purification unit that replicates the way nature keeps the air clean in Earth's forests and mountains, transforming stale, indoor air into fresh, purified air for you and your family. Covering up to 450 square feet, this unit is ideal for spaces larger than your standard room but smaller than a three-bedroom home, such as common areas and studio apartments.

Please carefully read the usage, maintenance and safety instructions outlined in this user manual for best results and a long-lasting system. The latest version can also be found online at mercolamarket.com.

Cautions + Warnings

Dr. Mercola® Air Purifiers are electrical appliances made exclusively for indoor use and should only be operated in accordance with the information outlined in this manual. Usage other than what has been specified here may result in a significant injury or event, including electrical shock or fire. Please read all instructions and caution statements below before operating.

Do not operate the air purifier unit unless it is completely assembled.

Place the unit on an elevated, stable surface.

Do not place the unit in wet areas of your home or near water, other liquids, a heat source, an open flame, or flammable/combustible fluids.

Always supervise children when they are near the unit.

Never block the ventilation or filter.

Do not place objects into the unit's openings, on top of it or directly against it.

Do not use the included power cord for anything else but the appliance.

Do not plug your unit into an extension cord or a power strip.

Do not alter the power plug in any way. If the plug does not properly fit into the outlet, contact a qualified electrician to install the correct outlet.

Never place the power cord under rugs or similar coverings, furniture, other appliances or in heavy traffic areas.

Ensure that the power cord and plug are not at risk of getting damaged. A damaged power cord must always be replaced by the manufacturer, service agent or similarly qualified person.

Always disconnect the unit from the power supply before cleaning and maintenance, moving it or when not in use. Be sure to gently disconnect it by pulling the plug, not the power cord.

Never operate the unit with a damaged power cord or plug, failed motor fan, after any malfunctions, or after it has been dropped or damaged in any manner.

Do not attempt to open or service the appliance yourself, as this will void your warranty. Service must be performed by the manufacturer, service agent or similarly qualified personnel using only original parts.

If the unit is damaged or malfunctions, turn it off, disconnect it from the power supply, and contact Mercola Market Customer Care for further assistance.

Get Started

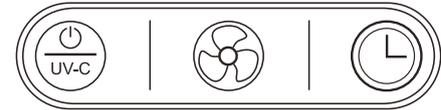

1. Carefully remove the air purifier and power cord from the packaging.
2. Place your unit in a suitable location that does not exceed the recommended room size. For best results, place your unit in an area with good circulation on an elevated, level surface like a table, counter or shelf. Never place an operating unit on the floor or within one foot of a wall or other objects.
3. Safely plug the power cord into a proper voltage AC electrical outlet.
4. Turn the unit on by pressing the POWER/UV-C button, and select your fan speed – low, medium or high.

PLEASE NOTE: When moving the Air Purifier, always lift unit by the carrying handle located on back.

Settings

POWER UV-C I I III 2H 4H 8H

REPLACE
FILTER

POWER/UV-C: Press this button to turn the unit and UV lamp on or off. When the unit is not in use, turn it off by pressing the UV-C button, and unplug it.

SPEED: Select the speed of the purifier fan, pressing once for low, twice for medium and three times for high speed.

TIMER: Set timed intervals of 2, 4 and 8 hours of operation, which stop automatically when the time has elapsed.

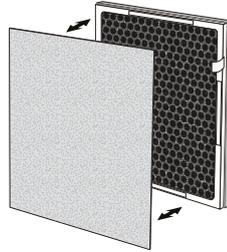

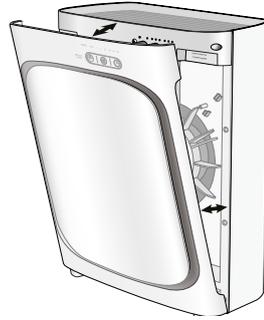

Care + Maintenance

Unit Cleaning

Always use a clean, dry, soft cloth to wipe the external surface of the unit, removing any debris or dust. Do not stick any foreign objects or your fingers inside the openings of the unit while you clean. Avoid the use of alcohol or any other cleaning solvents, as this could damage the unit.

Filter Cleaning

1. Turn off and unplug your air purifier. Open the front cover of the unit by holding the top with one hand and firmly pulling from the side opening with the other.
2. Remove the True HEPA Filter + Pre-Filter by gently pulling the two strips.
3. Separate the filters from each other, and gently clean each filter separately with the brush attachment of a vacuum cleaner to help remove lint and dirt.
4. You may rinse only the washable Pre-Filter under warm water, rotating the piece to remove build up on both sides.
5. Lay the Pre-Filter out to dry completely before reattaching it to the the True HEPA Filter.
6. Line up the new True HEPA Filter + Pre-Filter to the main opening, and gently push to insert it into the unit, with the strips on the top and your Pre-Filter facing out.
7. Replace the front cover of the unit by first lining up the inside bottom latches with the bottom frame of the unit, and gently push the cover in until the top inside magnets securely connect into place.

PLEASE NOTE: Never wash or use water on your True HEPA Filter.

Your Air Purifier 450, along with the True HEPA Filter + Pre-Filter, should be cleaned at least once a month. More frequent cleaning may be required depending on environmental conditions and usage. The Pre-Filter will need to be replaced once you can no longer remove dirt with routine cleaning.

Filter Change Indicator

Your specialized True HEPA Filter (enhanced with ODOGard®) will last approximately 6 to 12 months, depending on extent of use and environmental conditions. When the power light starts blinking continuously, it is time to replace the filter. Simply replace the filter according to the directions listed below, then press the POWER/UV-C button and hold for 5 seconds to restart the system. The light will stop blinking.

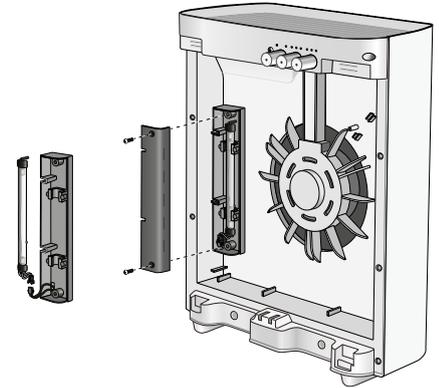

1. Turn off and unplug your air purifier.
2. Remove the True HEPA Filter + Pre-Filter from the unit and separate the filters from each other. You may clean your Pre-Filter during this time (see “Filter Cleaning” on page 6).
3. Attach Pre-Filter to the new True HEPA Filter, and place back into the unit.
4. Plug air purifier back in. Press and hold POWER/UV-C Button for 5 seconds to reset the Filter Change Indicator.

UV Lamp Replacement

Your specialized True HEPA Filter (enhanced with ODOGard®) will last approximately 6 to 12 months, depending on extent of use and environmental conditions. When the power light starts blinking continuously,

1. Turn off and unplug your air purifier.
2. Open the front cover, and remove the Filters from the unit (see “filter Cleaning on page 6).
3. Open the UV lamp cover using a screwdriver.
4. Carefully remove the UV lamp from its holder, and unplug the connector.
5. Connect the new UV lamp to the connector, and reattach the lamp to its holder carefully.
6. Replace the UV lamp cover. Replace the Filters and front cover.

PLEASE NOTE: Do not watch the operating UV lamp directly.

Disposal + Recycling

The Air Purifier 450 should be recycled as electronic waste, and the filters should be recycled as plastic according to local regulations. If you have questions regarding the disposal of this air purifier, please contact your local authorities to confirm the correct method of recycling.

Help + Support

If you have questions about your Dr. Mercola® Air Purifier 450 with True HEPA Filter or need personalized support, please contact Mercola Market Customer Care at 1-877-985-2695, or write a message at mercolamarket.com/customerservice.

Warranty Information

The Dr. Mercola® One-Year Limited Warranty applies only if the air purifier is installed, used and maintained according to the instructions in this manual.

Dr. Mercola® Air Purifier 450 with True HEPA Filter is warranted to be free from all defects in material and workmanship in normal household use for a period of one year from date of purchase. The warranty is granted only to the original purchaser. The warranty is subject to the following provisions. The warranty does not cover normal wear and tear. Any damages or malfunctions caused by negligence, abuse, improper use or use not in accordance with the User Manual are not covered by this warranty. If the unit is dropped, damaged, immersed in or splashed with liquids, these are not covered by this warranty. Likewise, defects or damages caused by unauthorized service or alterations are not covered. Using this unit for commercial purposes voids this warranty. Natural Health Partners, LLC will at its option, repair or replace a defective part on the Air Purifier 450 with True HEPA Filter that is covered by this warranty. As a matter of warranty policy, Natural Health Partners, LLC will not refund the customer's purchase price. To obtain warranty service you must return the defective Air Purifier 450 with True HEPA Filter along with proof of purchase to Natural Health Partners, LLC. All delivery charges on parts or units submitted under this warranty shall be borne by purchaser. Unless this warranty is expressly renewed or extended by Natural Health Partners, LLC any repaired or replaced part of the unit shall be warranted to the original purchaser only for the length of the unexpired portion of the original warranty. **FURTHER LIMITATIONS AND EXCLUSIONS ARE AS FOLLOWS:** Any warranty that may be implied in connection with your purchase or use of the Dr. Mercola® Air Purifier 450 with True HEPA Filter, including any warranty of merchantability is limited to the duration of this warranty. Some states do not allow limitations on how long an implied warranty lasts, so the above warranty may not apply to you. Your relief for the breach of this warranty is limited to the relief expressly provided above. In no event shall Natural Health Partners, LLC be liable for any consequential or incidental damages you may incur in connection with your purchase or use of the Dr. Mercola® Air Purifier 450 with True HEPA Filter. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.
