Hi <% if(recipient.firstName != ") { %><%=recipient.firstName %>, <% }else{ %>Valued Customer,<% } %>

You've heard the saying, "you are what you eat," but did you know that food and its production, in particular, affects the health of our planet, too? That's why we created Solspring® – the authentic food brand that goes far beyond nutritious and flavorful, offering organic and Demeter Certified Biodynamic® ingredients that inspire seconds.

WHAT IS BIODYNAMIC?

Known as the original regenerative agriculture – and what organic is actually based on – biodynamic is the holistic form of regenerative agriculture, that helps restore our degraded soils by naturally drawing carbon from the atmosphere and storing it into the ground, where it belongs, to create richer, more nutrient-dense food the way nature intended.

Biodynamic farms promote better health for all – people, animals and planet through diverse and balanced farmland. Plus, it completely avoids all synthetic pesticides, herbicides, fertilizers, hormones and GMOs.
