

XR700 132" Flex Deck Pull Behind Mower

The XR700 delivers the highest quality cut available for any PTO driven rotary mower. It offers an 132" (335.28 cm) cut in one pass with seven 21" (533.4 mm) flex decks. Budget minded customers who own a tractor can pay a fraction compared to self contained options. Also, the addition of the drawbar mounting option on the XR700T makes maneuverability and operation a breeze.
