

Who Are We?

The Succession Foundation is **one of the world's largest nonprofit organizations**. Our goal is to help the world conserve humanity's most precious resource: **Earth's truly wild forests**.

OUR MISSION:

The Succession Foundation exists to preserve and protect the biodiversity of our planet's forests. We believe in the importance of **activism, education, and ethics**. We believe that every individual has the power to change our world for the better— **what matters most is making the decision to act**.

Limitless Growth. Endless Possibilities.

Because we believe that the most important lesson is **learning how to care**.

Learn more about our Deforestation Education and Awareness Campaign today.

Be the Change.

Devoted to Change

Scientists predict that by 2050, over **1 million square miles** of tropical forests will be gone forever. With just **30 years** to save our forests, we can't afford to maintain our trajectory; **something has to change**.

Since 2022, we at the Succession Foundation have worked tirelessly to undo the damage caused by deforestation:

500,000 acres of forests restored

314 endangered plant species saved

\$70,000,000 raised in support of conservation efforts

\$0 gained for personal income

As a nonprofit organization, we rely on our generous supporters— **people like you**—to be **the change that matters most**.

Something for Everyone

GET ACTIVE

Volunteers and interns can get their hands dirty in our community service projects. You'll enjoy opportunities to **gain experience, meet new people,** and plant a tree of your very own.

GET EDUCATED

With our **Deforestation Education and Awareness Program**, our talented scientists will come to your school or university to provide a **one-of-a-kind educational experience**.

GET INVOLVED

As a donor, you'll play a **crucial role** in helping us achieve our conservation goals. You choose how much you want to donate each month— we'll update you on how your contribution is **making a difference**.

Grow With Us

In 2022, the Succession Foundation started as the passion project of a college student who wanted to make a difference. With the help of our partners and supporters, what began as a single person's dream is now one of the world's most viral environmentalist movements— but we've still got a long way to go.

WHAT'S NEXT?

The **Amazon Restoration Initiative**, which aims to restore 20,000 acres of the Amazon Rainforest, will be our most ambitious project yet. We need your support now more than ever— you might just help us **change the world for the better**.
