The house makes you look inward and backwards into your past. And what it makes you relive might not be the brightest moments to relive. But the hardest most soul defining moments. Harker is about to go through his past once again. But is it really his past or is the house twisting those memories as well?

The House continues to assault our senses, our right from wrong and now our past and present. We are still in the House living along everyone else. We the readers are still living and dying with the characters as they are on the pages. Yet the suspense is rising sky high as we know the end of the story is coming. What will it have in store for us? An untimely absolution? A raging carnage? Or a gaping void? The house is starting to represent the War more and more, you do not know what lies ahead, what will happen next and upon which horrors you might stumble next. It works in a way to reveal itself and make you think each and every issue that you read. You start to see the metaphors, the unspoken words and actions and the hidden meaning. Or at least the meaning that seemed hidden at first but is divulged slowly

throughout. And I have a feeling that that meaning might not be the same for everyone reading it. Everyone will experience it in different ways and take away different parts of the story to make it their own. That is what makes this series so powerful and interesting. It is a horrific history that has found a new way to come to us and to stay with us. That in itself is a valuable talent to possess to tell a story in such a way.

Again, I stay by my first held opinion, yet even more so now. You have to read this series. Uncover the meaning of it for yourself and see what you take from the story yourself. I guarantee you that it will reach out to each and every one of you in a different manner and when you least expect it. It is almost like The House presents you with this game, this puzzle that you are unaware you are participating in until you get further along and you see what was meant from the get go.

Go discover it for yourself, I urge you.
