Dragon Age worlds are at your fingertips in this amazing coloring book. There are a total of forty-five fantastic original black and white illustrations of characters and scenes each one more memorable than the next from the entire award-winning trilogy. Each one of these illustrations were specially crafted to be colored as you see fit. As a casual fan or The Herald of Andraste, this coloring book is not to be missed!

Color the world of Thedas! This coloring book is magnificent in its details, every scene is extremely detailed and beautifully created to give you the most of each drawing. It will no doubt bring endless pleasure in coloring each and every page. Every drawing has a quote on the opposite page relating to

the character and situation portrayed in the scene. It offers an added quality to each drawing, whilst also being practical during the coloring in sessions. I foresee a minimum of probably 5 hours per drawing. But that of course depends on how you decide to color the image, the amount of color blending, shading and gradients you feel are needed. The images are good enough to be removed from the book and framed should you so desire upon completion.

I can fully guarantee that this will be a cherished gift to all Dragon Age fans, and even if the person is not inclined to color the imagery, the simple drawings left uncolored are equally beautiful and powerful.

The book does not contain sample pages of the coloring or all the images fully colored in as examples, so it is entirely up to you to color as you wish. You can no doubt find coloring guidelines in images of the characters online should you feel the need of guidance.

I would highly recommend this book if you have even the vaguest inclination towards the fantasy genre and/or if you are an ardent colorist. Many hours of relaxations are to be had.
