Overview

The nursing field is growing—with estimates topping nearly 20% through 2020¹—and medical cosmetic procedures are more popular than ever. Within the field, nurses improve the appearance of patients through procedures including neurotoxin injections (Botox, Dysport, Xeomin), facial volume replacement therapy, chemical peels, intense pulsed light and laser treatments, among other procedures.

By partnering with UC Irvine's Nursing Science Program, the UCI Division of Continuing Education allows nurses at all career levels to specialize through continuing education coursework. The aesthetic courses introduce the licensed clinician to specific treatments and administration, and provide a foundation from which to practice.

¹Bureau of Labor Statistics, Occupational Outlook Handbook

Benefits

- University of California approved curriculum
- Outstanding real-world practical training
- All courses are taught by highly-qualified nurses from UCI's Nursing Science Program, and give an in-depth understanding of nursing requirements in this high-growth environment
- UCI Division of Continuing Education is approved by the California Board of registered nursing (provisional terms forthcoming) to offer these courses on certain hours—see individual course descriptions for details

Nursing Science Courses, Areas of Study

Aesthetic Nursing

Aesthetic practice focuses on improving the appearance through medical cosmetic procedures such as neurotoxin injections (Botox, Dysport, Xeomin), facial volume replacement therapy, chemical peels, intense pulsed light and laser treatments, among other procedures. These courses will introduce the licensed clinician to specific aesthetic treatments and administration, and provide a foundation from which to practice.

Who Should Attend

- Courses are designed to provide advanced and continuing aesthetics education to RNs, Physician's Assistants, Nurse Practitioners, Advanced Practice Registered Nurses, and physicians

On-site Training Available

Our Corporate Training specialists can deliver this program or customize one that fits your organization's specific needs. Visit [Corporate Training](#) or call (949) 824-1847 for information.

English Proficiency Requirement

All certificate programs at UCI Division of Continuing Education require students to demonstrate English proficiency before enrolling. English language proficiency in listening and note-taking, reading comprehension and vocabulary, written expression, and oral presentation.
