TRAINING

Optimize Your
Training Experience

You need to remain up to date with the latest surgical advances through ongoing professional education using the latest techniques and technologies. Keeping your surgical skills current improves your career opportunities for advancement and stature in the community, as well as improving access to quality care in underserved communities. By embracing innovation and growing your surgical capabilities you are able to deliver better patient outcomes.

TRAINING

Committed to Your
Professional
Development

Bioskills of the North East was designed and built by physicians for physicians, ensuring optimized teaching and training experiences. The facility offers state-of-the-art technologies, simulation equipment and sourcing of anatomy and tissue specimens to enhance your skillset, while making the most of your time and budget.

It is critical that you have access to top-quality specialty facilities for training, research and collaboration. At BONE, you'll find cutting-edge capabilities in an environment that's designed for your professional success. Our highly trained professional staff is dedicated to providing exceptional service that supports your professional education, career goals and the advancement of medicine.

As your training facility partner, BONE provides dedicated support for your professional development and growth. Our cutting-edge facility is the ideal environment for collaboration between medical professionals from different specialties and institutions, a hub for sharing ideas, insights and best practices. The results improve the quality of care for your patients and our regional communities.

KNOWLEDGE, EXPERTISE, LEADERSHIP

Leverage
The Benefits of BONE

BONE IS FOUNDED AND ADVISED BY PHYSICIANS

SPECIALIZED LABS PROVIDE ACCESS TO TOP-OF-THE-LINE EQUIPMENT FOR SKILLS ENHANCEMENT

COST-EFFECTIVE TRAINING SOLUTION FOR TIME-STRAPPED SURGEONS

PREPARE PHYSICIANS TO MEET SURGICAL LICENSING OR REGULATION REQUIREMENTS

BONE'S HIGHLY TRAINED TEAM OF PROFESSIONALS PROVIDES SPECIMENS, TOOLS AND EVENT SERVICES AS NEEDED

"Great place for learning advanced medical techniques and applications. Really enjoy the cadaver labs. [BONE] has up-to-date technology and exceeds many local hospitals and clinics. The staff is great and knowledgeable. I look forward to my next visit."
