Eligibility through **SUSPENSION OF SERVICES**

An early childhood education facility in South Pasadena, California with 16 employees had to suspend 100% of their operations for a time. When they were allowed to reopen, social distancing requirements and capacity limitations cut their service capabilities by 30% when compared to 2019.

Based on these facts, Omega was able to qualify the facility for an ERC refund of more than \$187,000.
