

Dekra Stickers – The Different Options at WeBuyCars

How WeBuyCars adds value through third party used vehicle reports.

When it comes to purchasing a second-hand vehicle, it's critical to make the right decision. At WeBuyCars we pride ourselves on providing ample resources and information to our customers, encouraging them to make informed and well-thought through decisions.

First things first, what is Dekra?

Dekra is an independent vehicle inspection company that conducts condition and roadworthy evaluations on vehicles. Each vehicle is evaluated independently by Dekra and presented with a used vehicle report that highlights roadworthy relevant concerns. This provides our customers with peace of mind and insight when it comes to the vehicles at WeBuyCars.

WeBuyCars Dekra Used Vehicle Report

We believe in full transparency when it comes to the vehicles we have available, that is why each vehicle has been independently evaluated by [Dekra](#). Used vehicle reports can be downloaded on our website or obtained by any of our sales staff.

Some of the details covered in the Dekra used vehicle report:

- Brake test results.
- Tyre specifications and measurements.
- A diagnostic report highlighting error codes.
- Shock absorber test results.
- Photos of the undercarriage and body of the vehicle, highlighting aspects that might require repair or maintenance.

Even though WeBuyCars provides sufficient resources with every vehicle, in some cases additional maintenance and repairs will be needed for the vehicle to pass the roadworthy test. We are willing to arrange possible repairs and servicing for selected vehicles, this will however be at the customer's own account.

Dekra Stickers at WeBuyCars

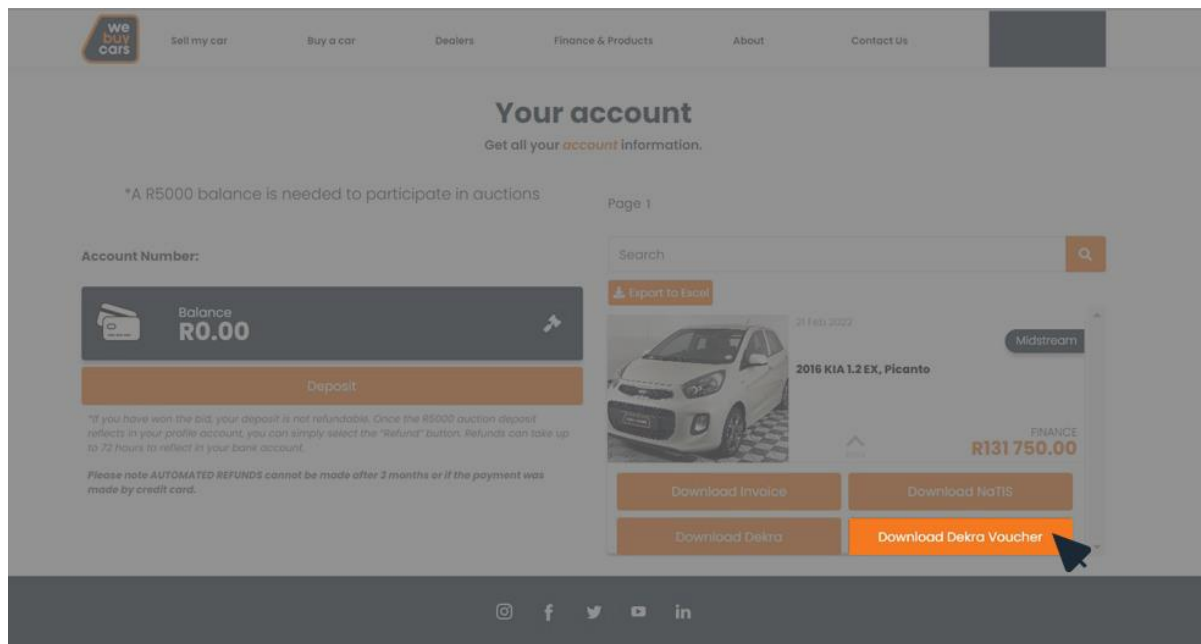

Ready-to-Go	Dekra Gold
	
Dekra Green	Roadworthy Voucher
	

Selected vehicles at WeBuyCars contain Dekra certified stickers:

- **Ready-to-Go DEKRA Stickers:** Cars with a ready-to-go Dekra sticker are – **ready to go!** Meaning that these vehicles have already passed the roadworthy test and are ready to purchase as is.
- **Gold DEKRA Stickers:** Cars that have a *gold* Dekra sticker are guaranteed to pass the roadworthy test but are yet to undergo the test. These cars may have minor cosmetic imperfections but are overall in great shape.
- **Green DEKRA Stickers:** Cars with a *green* Dekra sticker have been inspected but have preliminary “roadworthy relevant” concerns. This implies that the vehicle might need to undergo some maintenance and repairs in order to pass the roadworthy test.
- **Roadworthy Vouchers:** At WeBuyCars selected vehicles include roadworthy vouchers. These cars do not require additional repairs or servicing and are automatically eligible for finance because of the roadworthy clearance. The “roadworthy included” vehicles contain a Dekra voucher, covering the cost of the vehicle's roadworthy test at any Dekra testing station.

How to download your Dekra voucher

1. [Log into](#) your account on the WeBuyCars website. If you do not have an account yet, feel free to [sign up](#).
2. Click on your registered username and select “account” to view your account information. On this page you can download your Dekra voucher.
3. You can then print and present the voucher at any Dekra testing station or speak to your sales executive to assist you with the process.

Still There?

Overall, we aim to provide adequate resources and information on our vehicles. This allows our customers to make informed decisions during their WeBuyCars journey. Pop into any of our [branches](#) or reach us at [087 057 0000](tel:0870570000) for any additional information.
