

Keep your schedule straight with the Daily Planner from [CLIENT]. It has a unique layout that provides space for your must-dos that day as well as long-term goals for the week or month. The timeline is broken down in half-hour segments for easy time-blocking, and the opposite blank page gives you room to brainstorm, take notes, or add an inspirational quote.

Take your favorite drink on the road with this [CLIENT] stainless steel thermal travel mug. Double-wall insulation keeps drinks warm for 12 hours and cool for 8, and the spillproof design enables worry-free sipping — even during rush hour traffic in your favorite shirt. This mug is dishwasher-safe for easy cleaning and fits standard cupholders.

Ensure you can always put your hands on important documents with this [CLIENT] filing cabinet. The easy-glide tracks help you pull out even the heaviest of drawers, and the mini drawer at the top is the perfect place to stow pens, labels, and other small office supplies.
