1923 The first tax-exempt theatre in the nation is built on Huntington Avenue, becoming the Boston University Theatre in 1953.

1940 The landmark Citgo sign is erected in Kenmore Square.

1955 Martin Luther King, Jr. earns his PhD at Boston University.

1958 BU faculty member and poet Robert Lowell taught budding poets Sylvia Plath, Anne Sexton (pictured), and George Starbuck in his historic poetry seminar.

1971 John Silber is inaugurated as Boston University's seventh president (until 1996).

1965 BU's Warren Towers residence hall opens.

1986 BU Professor of Humanities Elie Wiesel wins the Nobel Peace Prize.

1997 Robert Pinsky, BU professor of English and creative writing, is named 39th United States Poet Laureate by the Library of Congress (reappointed in 1998 and 1999).

2000 Dr. Jhumpa Lahiri, who holds four BU degrees, wins the Pulitzer Prize for Fiction with *Interpreter of Maladies*, as does BU creative writing professor Ha Jin (*Waiting*).

2012 BU joins the Association of American Universities (AAU), an elite organization of 61 other leading research universities in the United States and Canada.

Chemistry

Choosing the Right General Chemistry Course:

CAS CH 101 is the first semester of a two-semester sequence of introductory chemistry designed for science majors (biology, chemistry, biochemistry, premedical/dental) requiring two semesters. **CAS CH 131** is a one-semester course designed for engineering majors requiring only one semester. **CAS CH 171** is a one-semester course designed for some biological and health science majors requiring only one semester.

Choosing the Right Organic Chemistry Course:

CAS CH 172 is a one-semester survey course covering the fundamental aspects of organic chemistry and biochemistry, for students requiring only one semester who are interested in the biological and health sciences. **CAS CH 203/204** is a two-semester sequence that satisfies the requirements of most students interested in pre-medicine/dentistry, other medical/health sciences, or biological sciences. **CAS CH 203/214** is a two-semester sequence designed for students requiring a more intense laboratory experience than CH 203/204.

Choosing the Right Biochemistry Course:

CAS CH 273 is a one-semester course designed for some biological and health science majors requiring only one semester. **CAS CH 421** is the first semester of a two-semester sequence designed for chemistry and biochemistry majors requiring two semesters.
