Can I Ship to Canada With USPS?

Yes you can. There are many good couriers that you can choose from but in this post we will specifically look at USPS and the shipping options they offer. USPS is a great courier service with a range of different shipping options. Keep reading to find out what services are available to you and compare the delivery speed and cost when shipping with USPS.

How Much Does Shipping to Canada Cost?

If you want to know how much is shipping to Canada then it's important to know that shipping costs vary depending on a few factors. These factors are:

- The weight of the package
- The dimensions of the package
- Where the package is being shipped from
- How fast you want the package to get there
- The courier service you choose

Before you ship a package, it's always good to keep these factors in mind. Sometimes the weight and size of a package can't be changed but you'd be surprised at the difference packaging can make. If you use too much unnecessary packaging then this will make your package larger and heavier for no reason so it's important to be mindful when packing an item to ship.

You'd think that the speediest option would be the most expensive but this isn't always the case. So, how much is shipping to Canada from US?

Here is an example of what it would cost to send a 2lbs package that's 4x4x4 inches from the US to Canada with USPS, using [Easyship's shipping calculator](#).

- **USPS - Priority Mail International** - One of the cheapest options when sending a package internationally to over 180 countries
- **USPS - Priority Mail Express International** - Fast international delivery to over 180 countries
