Top 10 WooCommerce Shipping Plugins

Are you looking for the best WooCommerce shipping plugins? In this article we'll discuss our top 10 choices.

By Lauren Green, October 17, 2022

Key points:

- WooCommerce Plugins allows eCommerce businesses to convert their WordPress websites into fully functional storefronts
- Easyship is a leading shipping platform designed to empower eCommerce businesses with worldwide shipping

Shipping is an essential but challenging aspect of order fulfillment in any eCommerce business. Any merchant that does not carefully plan their shipping processes might lose a lot of customers to technical and logistic issues.

Businesses must provide accurate shipping rates, ship orders quickly and keep their customers informed of the shipping status.

This article will discuss the top 10 WooCommerce shipping plugins that will handle all aspects of your shipping, including showing real-time shipping rates, creating print labels, parcel tracking, and providing the estimated arrival date.

Why Should You Use WooCommerce Shipping Plugins?

WordPress is a fantastic Content Management System (CMS) tool for building websites and eCommerce online stores with several themes without writing code.

Despite how helpful WordPress is, it has limited functionalities for eCommerce businesses. And that's where WooCommerce comes in.

WooCommerce Plugins allows eCommerce businesses to convert their WordPress websites into fully functional storefronts.

A category of these plugins is the WooCommerce Shipping Plugin.

The WooCommerce shipping plugins provide features that allow merchants to provide better deliveries and diverse shipping options and integrate third-party shipping services with their online store.

With **WooCommerce Shipping Plugins**, you can *provide your customers with*:

- Accurate shipping rates
- Shipping labels attached to the parcels
- Tracking Information
- Estimated delivery dates

Top 10 Best Plugins for WooCommerce Stores

Here are some of the best plugins to use for your WooCommerce stores.

- Easyship:** The [Easyship for WooCommerce plugin](#) provides eCommerce business owners access to the best shipping solutions.

Whether they run a small or large-scale business, Easyship shipping solutions provide cheaper shipping rates and seamless deliveries to customers worldwide.

With Easyship, you have access to:

- Pre-negotiated shipping solutions from popular shipping carriers
- Full transparency with dynamic rates at checkout
- 24/7 customer support services
- Branded packing slips and tracking pages
- Automatically generated domestic return labels
- Flexible shipping options
- Domestic and international shipping solutions

- WooCommerce Address Book:** The [WooCommerce Address Book plugin](#) is a free plugin that allows customers to save multiple billing and shipping addresses on their accounts while visiting your online store.

These addresses can then be accessed during the checkout process. It helps improve user experience, especially for customers that send parcels to different addresses.

- WooCommerce PDF Invoices & Packing Slips:** The [WooCommerce PDF Invoices & Packing Slips](#) plugin is used by businesses to send out invoices to their customers.

Generating, printing and sending out invoices and packing slips features are not available in WooCommerce. But, this plugin can be used to perform these features.

It allows merchants to automatically attach users' invoices in PDF formats to the order confirmation emails sent out to your customers.

You can also generate and print packing slips in bulk with this plugin. The plugin has a free and paid version with multiple plans starting from €54.00.

Other notable features:

- Customizable invoice templates
- Supports multiple languages
- Well-organized invoices
- Bulk or individual invoice and packing slip generation

- YITH WooCommerce Wishlist:** [YITH WooCommerce Wishlist](#) plugin is similar to the "Add to Favorites" or "Add to Wishlist" feature on popular eCommerce stores.

The plugin allows customers to store their desired items in a list and access them for purchase later. It further improves user experience and provides a better user interface for customers.

The plugin is free but has a pro version that costs \$89.99.

Other notable features:

- Customizable wishlist format
- Categorizing wish list into multiple lists
- Select where to show the shortcode 'Add to wishlist'
- Show the 'Remove from wishlist' button when the product is on the wishlist
- Show the 'Add to wishlist button' on the shop page
- Sharing wishlist with family and friends for celebrations
- Sharing wishlists on social media websites

- Custom Product Tabs for WooCommerce:** If you are looking for ways to divide your online store into titled sections, this plugin is the right one for you.

[Custom Product Tabs for WooCommerce](#) allows merchants to add consolidated tabs to their product pages. These tabs support different kinds of content and can be edited, rearranged or deleted using the WordPress text editor.

The plugin is primarily free but has an optional paid version with a fee of \$29.99.

- PickPlugins Product Slider for WooCommerce:** Many website-building tools lack product sliders for displaying products, and this is a common issue among eCommerce sites.

[PickPlugins Product Slider for WooCommerce plugin](#) helps to solve this problem.

The plugin is a simple and easy-to-use carousel slider for WooCommerce products. It allows business owners to create many product sliders and display them anywhere on the page using shortcodes.

It is also an excellent plugin to direct customers to your store when writing about a product on your blog.

The plugin is free, but you can access more themes and layouts by paying \$29 for the premium version.

- WooCommerce Multilingual:** This free plugin is a must-have for businesses with an international audience.

If you want to offer your customers multiple language choices, the [WooCommerce Multilingual plugin](#) offers the best features you need to get started.

By integrating the [WPML](#) plugin - a popular translation plugin for WordPress sites with WooCommerce Multilingual, you can translate your entire eCommerce website and integrate multicurrency features.

With WooCommerce Multilingual, you can access the following multicurrency features:

- Configure different currencies to appear depending on the location of the customer
- Include currency converters on your site
- Format your currencies
- Decide on your exchange rates or choose a service that provides automatic exchange rates.
- Set custom prices and shipping charges in secondary currencies.

- Booster for WooCommerce:** [Booster for WooCommerce plugin](#) provides over 100 exciting features in a single package.

Unlike other plugins with specific features, Booster combines everything you need to set up and personalize your eCommerce site.

Some of these features include

- Payment gateways
- Bulk price converting
- Shopping cart and checkout
- Prices and currencies
- Global discounts
- Pdf invoicing and packing slips
- Tools for letting your customers offer their pricing

Despite the extended range of additional features, the Booster for WooCommerce plugin is free. But, there is an advanced form with more premium features - Booster Plus, which costs \$49.99.

- EU VAT Compliance Assistant for WooCommerce:** This tool is helpful for merchants with audiences in the EU.

The EU requires the payment of Value-Added Tax (VAT) on all goods, including digital products.

So, your business must include VAT as part of your costs. And that problem is what the [EU VAT Compliance Assistant plugin](#) solves.

Some features offered by this WooCommerce Plugin include:

- Identifying your customers' location
- Displaying VAT to customers
- Converting currencies
- Applying VAT when applicable
- Distinguish VAT from other taxes
- CSV download

Some of these essential plugin functionalities are offered for free. However, the price of the premium version starts at \$50.

- Checkout Field Editor (Checkout Manager) for WooCommerce:** The [Checkout Editor plugin](#) provides 20 different custom checkout fields that store owners can add to their WooCommerce checkout page to collect more information from customers.

Also, merchants can add, remove, edit, hide and rearrange these custom fields in the checkout section. This provides versatility, especially for businesses that receive custom orders.

The plugin has a free and paid version which costs \$39.

Download the Easyship WooCommerce Shipping Plugin for Free

Shipping processes can be tedious because business owners have little or no control over them, as they cannot predict logistic issues.

But, with the right tools, shipping processes can be more effective and less challenging.

WooCommerce shipping plugins do not only offer better shipping solutions, but also extend the features of your online store. They make shipping processes smoother and allow you to focus on your business needs.

Earlier, we mentioned Easyship for WooCommerce Plugin - a plugin that offers solutions to make shipping processes easy.

Easyship is a leading shipping platform designed to empower eCommerce businesses with worldwide shipping and help them boost their revenue.

Some of Easyship's outstanding features include:

- Shipping Policy Generator:** Our shipping policy generator helps merchants and crowdfunding campaigns generate their shipping policy by providing tracking and insurance options
- Real-Time Shipping Rates at Checkout:** Easyship shows the cheapest, fastest, and best value shipping options at your store's checkout. This feature makes it easier to be flexible with your shipping options while letting customers have a choice
- Easyship Branding Suite:** Easyship provides a delivery experience consistent with your brand. Add your logo and advertising materials to your packing slips, landing pages, and tracking emails

We hope this post including our top 10 best shipping plugins for WooCommerce helped!
