

Bayhealth Medical Center

February 14, 2021 · 🌐

There are many couples, as well as members of the same families, who work at Bayhealth. To celebrate Valentine's Day, we're spotlighting some of these Bayhealth sweethearts. Bayhealth Emergency Physicians Group Nurse Practitioner Kevin Wiley and 4A Clinical Coordinator Melissa Phenix have been together for 10 years. They met at Bayhealth when Kevin was a new graduate nurse and began working on 4A. Kevin and Melissa actually had two wedding ceremonies, one in Delaware and one in Melissa's hometown of Montreal, Canada. For the past several months, their child has been battling leukemia. As they say, although this is a parent's worst nightmare, it has made them stronger as a couple and a family. We invite you to share a photo of your sweetheart, whether that's a spouse, partner, child, friend, pet, etc., and why they're your sweetheart in the comments below. [#sweetheart](#)
