

Bayhealth Medical Center

January 26 · 🌐

Nurse Kate King gives more than time and talent but generosity is a way of life for her. We are proud to have many nurses like her as a part of our team.

Making a positive impact on her patients, their families, her fellow Bayhealth team members, and the community is important to Bayhealth Hospital, Sussex Campus Critical Care Unit Clinical Coordinator Kate King, BSN, RN, CCRN. That's also why she began donating to Bayhealth.

Kate joined Bayhealth as a new nurse working in the IMC at Bayhealth Milford Memorial Hospital in July 2014, transferred to the ICU in 2016, and became the clinical coordinator in the summer of 2018. She began donating to Bayhealth at the start of her career and has continued to support the organization with contributions ever since.

"Although I feel like I have an impact on the patients and families I directly care for, it's only for a brief time. Donating to the Foundation has a longer impact on the community as a whole," explained Kate. "I also want to make sure that my patients are having their needs met on a long-term basis after they leave my care."

With her donations, Kate has chosen to contribute to a couple of specific funds, including the Employee Assistance Fund and the Bayhealth Sussex Campus.

"I think supporting our fellow Bayhealth team members is important and having a program like the Employee Assistance Fund where someone can go in the case of a family emergency is amazing," said Kate. "I also recently added an additional donation for Sussex Campus because I'm very proud of the work that we are doing in our community, and I like knowing I'm a part of helping to meet their growing needs."

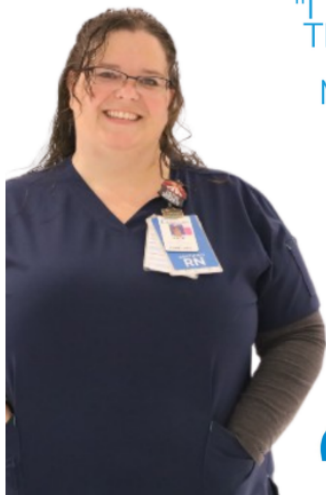

"We are grateful to Kate and all employees who support the work being done at Bayhealth to provide quality care for our patients," said Chuck Desch, Bayhealth Foundation Director of Development. "Kate's continued generosity is very much appreciated."
