

Dr. Corey Rosenbaum

Orthopedic Surgeon, Foot and Ankle Surgery,
and Orthopedic Trauma

Dr. Rosenbaum is a board-certified, fellowship-trained orthopedic surgeon who specializes in foot and ankle reconstruction and replacements, orthopedic trauma, fracture care, cartilage restoration and sports medicine. Following completion of medical school, Dr. Rosenbaum completed a five-year orthopedic residency at the University of Florida including one year spent at the Mayo Clinic. After residency he spent an additional year of training by completing a fellowship in orthopedic foot and ankle surgery and reconstruction at the University of Texas in Houston.

His areas of specialty include orthopedic trauma fracture care with a special interest in hip fractures. Other areas of interest include ankle fractures, ankle arthroscopic surgery, total ankle replacements, complex reconstructive ankle/foot surgery, deformity correction, limb salvage procedures, amputation revisions, tendon transfer/foot drop, and treatment of Achilles tendonitis/ruptures, sports related injuries, foot and ankle arthritis, flat feet, and bunions.

Dr. Scott Putney

Orthopedic Surgeon, Hand, Wrist and Upper
Extremity Surgery

Dr. Scott Putney specializes in surgery of the hand and upper extremities as well as microvascular surgery. He is a graduate of Washington and Lee University with a Bachelor of Science in Biology. He earned his medical degree from the Virginia Commonwealth University School of Medicine. He completed his residency in orthopedic surgery at the University of Florida College of Medicine in Jacksonville and then went on to a fellowship program in hand surgery at the Christine Kleinert Institute at the University of Louisville in Kentucky.

Dr. Putney is highly experienced in current operative techniques including arthroscopy, upper extremity joint replacement, fracture fixation, minimally invasive surgery, and microsurgery. He is board-certified in both orthopedic surgery as well as hand surgery, an additional qualification with rigorous ongoing standards to ensure patients are getting the highest quality care.

EMERGENCY SERVICES

Our orthopedic surgeons and trauma specialists are trained to treat all your patients' traumatic injuries including broken bones, fractures and tears. While the severity of bone and joint injuries varies, we are committed, and experienced, in providing emergency care with the urgency your patients require and deserve. Once the initial trauma is addressed, we will make sure your patients have an individual treatment plan for a quick, successful recovery.

- Fractures
- Broken Bones
- Joint Dislocations
- Muscle, Ligament, and Tendon Tears

ADVANCED TECHNOLOGY

At Flagler Health+ Orthopedic Specialists, we employ cutting edge technology for joint replacement. Our physicians utilize the innovative Mako Robotic-Arm Assisted technology which allows us to create personalized surgical plans for your patients with precise cuts that minimize hospital and recovery time. Plus, in a clinical study, Mako patients surveyed 6 months after surgery reported lower pain scores than those who received a conventional joint replacement. It's just one more way we can help get your patients back to the things they love, quicker and pain free.

Dr. David Gay

Orthopedic Surgeon, Shoulder, Elbow and Wrist Surgery

Dr. Gay is a board-certified orthopedic surgeon specializing in disorders of the shoulder, elbow, and wrist. He is an honors graduate of Appalachian State University. His medical training was completed at the University of South Carolina and his residency training at the University of Florida - Jacksonville. He received his fellowship training at the prestigious Hospital for Special Surgery/Cornell University in hand and upper extremity. He completed a second international fellowship in shoulder and elbow surgery at the Melbourne Shoulder and Elbow Centre in Australia. Dr. Gay has a particular interest in arthroscopic surgery of the shoulder and computer-assisted and GPS shoulder replacement surgery.

Dr. Jeffrey Keen

Orthopedic Surgeon, Hip and Knee Surgery

Dr. Jeffrey Keen is a board-certified fellowship trained orthopedic surgeon specializing in hip and knee surgery. Dr. Keen graduated from the University of Louisville School of Medicine. He then completed his residency in orthopedic surgery at the University of Florida College of Medicine - Jacksonville. Following residency, he completed fellowship at the prestigious Insall Scott Kelly Institute in New York City.

Dr. Keen is a complete knee surgeon specializing in all aspects of knee surgery. He performs robotic-assisted total and partial knee replacements. He also performs a high volume of arthroscopic knee procedures for sports injuries, including ligament reconstruction, and has a special interest in cartilage injuries to the knee. When caring for the hip, he performs computer-assisted hip replacements. He uses cutting edge procedures to care for his patients including minimally invasive surgery and anterior hip replacements.
