## The Plus Bus Mobile Clinic Philosophy

The Plus Bus Mobile Clinic offers a tailored, high-impact and affordable health care solution, capable of responding dynamically to the community's evolving needs. Our aim is to improve health outcomes and quality of life for people in vulnerable populations by providing clinical care and connections to resources that help advance the physical, social and economic health of the communities we serve. We are committed to ensuring a safe, compassionate environment where all people are valued, and all are treated with dignity.

## How to Reach Us

You can find out where the Plus Bus is headed next at flaglerhealthplusbus.com. If you are interested in scheduling an event, please email: plusbus@flaglerhealth.org.

# Flagler Health+

Flagler Health+ is here for the life of the community. That's why we are bringing our mobile health clinic – the Plus Bus – to a location near you. In partnership with our social health organization, Care Connect, the Plus Bus Mobile Clinic is here to help area residents achieve their greatest health, with an emphasis on those who may be uninsured, underinsured or have other challenges accessing quality care. Whether it's cancer screenings, basic health maintenance, immunizations, chronic disease management, or laboratory diagnostics, we are here to meet those needs where they are.

## What to Expect

The Plus Bus has two private exam rooms, a laboratory and a waiting area. Some services require pre-registration while others do not. Whatever your needs, our clinical and social health teams are committed to protecting your privacy and to surrounding every interaction with the highest level of compassionate care in this comfortable, mobile setting.
