

Science Lesson Plan 2023

Title of Lesson: Waves

Date of Lesson: 6/5/23

Learning Goals:

- Students will learn how waves are formed
- students will learn what other kinds of waves are
- students will learn the difference between invisible waves and waves you can see

Learning Objectives (of the lesson):

- students will look at the graphic organizer and pick one detail
- students will take that detail and write a sentence with the starter "Waves are found..."
- students will draw a picture to correspond with their sentence

Materials & Equipment Needed:

- "waves" book
- pre-printed pictures
- poster paper
- worksheet I made for them to write their sentence on
- pencil
- coloring utensils.

Introduction:

Read the book "waves"

Procedures:

- read the book "Waves"
- reread the book but stop once a new detail is brought up and add a picture of it to the graphic organizer.
- ask students to brainstorm a sentence and share with a partner
- have students go back to their seats and write their sentence on waves.

Evaluation/Assessment:

I will look at their sentences and see if they understood the form of wave they were writing about.

Science Lesson Plan 2024

Title of Lesson: Season Memory Game

Date of Lesson: _____

Learning Goals:

- students will be able to tell me the four seasons
- students will be able to identify what season each card would go under
- students will be able to match cards

Learning Objectives (of the lesson):

- students will be able to identify the season on the card and use their memory to find the matching card.

Materials & Equipment Needed:

- Cards with objects that match each season

Introduction: The cards will be shown to the students and they will sort the cards into four seasons as a group.

Procedures:

- students will identify the four seasons
- Students will sort the cards into each season
- after the cards are sorted, one season will be laid out into a memory game
- students will take turns flipping two cards at a time trying to find a match.

Evaluation/Assessment:

- I will know if they understand the seasons by how well they can tell me what card goes where.
- I will see if they are paying attention to their friends' turn by how well they can match the cards.
