Dear CSS Alum:

Led by current CSS senior, Johnathen Rockwell, our department (yes, we are a department now!) is creating a comprehensive archive of the senior thesis projects completed since 2006. We hope that this archive will serve as a history of our creative practices as well as a resource for alumni and future student filmmakers. We are reaching out to you in the hope that you will want your work included.

To that end, if you could send along a copy of your thesis project we would be enormously grateful. We ask that you include the following information:

Title:
Author(s):
Date of creation:
Medium:
Subject:
Length (runtime, pages, etc.):

We will of course contact you again when the archive is complete and ready for access. And please accept in advance our thanks for your generosity and cooperation.

Sincerely,

Johnathen Rockwell and the entire CSS Department Faculty
