Video Editor at Ura Media x Jellysmack

Feb 2021 - Present

Prishtine

- Creating dynamic videos for social media for Facebook, YouTube, Instagram, Reels and Tiktok.
- Adapting the YT video to a dynamic and interesting chronological story to each video for other platforms.
- Using data analysis to maximize video performance
- Working in a team of fast paced environment
- Working to deadlines and engagement targets
- Worked with a variety of video formats, including reactions, compilations, beauty, food, learning, arts and crafts, casual and social etc.
- I possess skillset in dynamic storytelling video editing, utilizing my creative vision and technical expertise to craft visually stunning and emotionally impactful content.
- Worked on over 300 projects overall and collaborated with more than 60 famous youtube creators.
- Creating thumbnails for each video that I edit.

Adobe Photoshop, Adobe Premier Pro, and Adobe After Effects are the programs that I use.

Promoted Position as Video Editor

Dec 2022 - Present

In this role, I am trusted to work with the best YouTube content creators, such as PewDiePie, Guava Juice, Danny Duncan etc who have shorter deadlines and deliver the highest quality.

Courses

Front End Development - Peer Educators Network

HTML, CSS, Javascript, React, and mongodb were all things we learned here, and our final project involved making a responsive front page with a design and the capacity to save data.

Personal Youtube Channel

Channel content contains hiphop/rap music genre, it contains non famous artists in order to make them famous with their copyright legible what I did in procces is talked with the artist I made their thumbnail and posted the video based in older video stats which performed better and also to consider their best timezone, location, viewer age, gender and other strategies in order to raise the probability to gain more viewers

The channel stats are more than 5 mil views, 8,000+ subscribers and more than 1,500€
