

Use Adobe Experience Manager Livefyre with Adobe Target

Livefyre integration with Adobe Target allows you to share Livefyre Apps directly to your Target Offers Library.

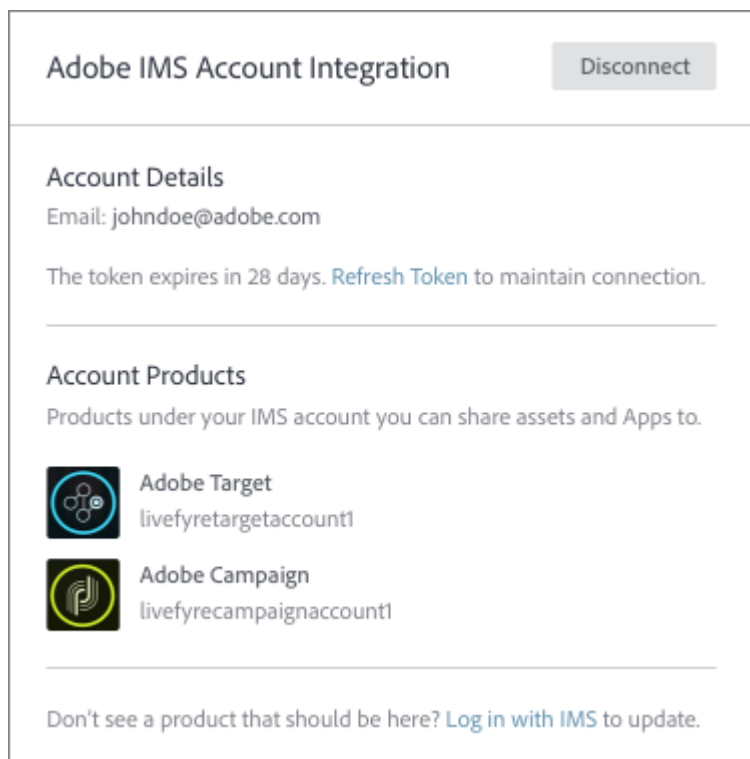

Parent topic: [Library](#)

Connect a Livefyre Instance with Target

Connect a Livefyre instance with Adobe Target by linking your Adobe IMS account in user settings.

1. In Livefyre Studio, click the **Users** tab.
2. Select the user account which you want to connect to Target via IMS Account Integration.
3. Click **Connect**.
4. Enter your IMS credentials.

The product instances your Adobe IMS account has access to display in the Adobe IMS Integration window.

Your Livefyre instance is now connected to Adobe Target.

Share a Livefyre App with Adobe Target

Share an App created in Livefyre Studio directly with Adobe Target.

1. In Livefyre Studio, click the **Apps** tab.
2. Select the App you want to share to Adobe Target.
3. Click **Publish**.
4. In the Publish Settings, click the Adobe Target switch.
A list of Target Instances will appear.

5. Select the Target instance in which you want to share the App.

Publish Settings

Article URL *

URL is used for SocialSync, Permalinks and e-mail notifications

URL

Adobe Target

Publish this App as an offer in your Adobe Target account(s)

All offers in accounts you previously published to will automatically update to this app version after publishing.

<input type="checkbox"/> Account	Last Published
<input checked="" type="checkbox"/> livefyretargetaccount1	
<input type="checkbox"/> livefyretargetaccount2	3 hours ago
<input type="checkbox"/> livefyretargetaccount3	01/01/2018

Real-time Streaming

Enabling real-time streaming may affect your Target experiment

Note: Publishing will make this App live for use outside of Livefyre studio.

Cancel

Publish

6. Click **Publish**.

The Livefyre App is now available to use in your Target Offers Library. For more information on publishing Apps, see [Publish Content](#) and [Offers](#) in the Target documentation.
