Why choose
CenterWell Primary
Care Anywhere?

Personalization and quality

Our board-certified providers spend an average of 45 minutes with each patient, compared to the national average of 18 minutes. They take the time to get to know you and answer your questions—even the ones you didn’t think to ask. CenterWell™ care teams make decisions with you, not for you.

Convenience

CenterWell Primary Care Anywhere delivers the services you’d expect at a doctor’s office right where you live. That means no need for transportation and no crowded waiting rooms. By coming to you, our care teams can check your home for fall hazards and other safety risks.

Care coordination

Our dedicated care coordinators manage referrals, order medical equipment and make sure you’re up to date with prescriptions and appointments. They can also provide support and resources for family and caregivers.

No added costs

We are in-network with Medicare and major Medicare Advantage plans, so CenterWell house calls typically have the same copay as a primary care provider office visit.
