

# Trade the waiting room for your living room

House calls offer personalized primary care in the comfort of home

CenterWell™ Primary Care Anywhere brings routine medical care to you—no driving, no crowded doctor’s office, no hassle.

Since we’re in network with Medicare and most Medicare Advantage plans, **you pay nothing extra for being seen in your home**. We offer in-person house calls and fully remote virtual visits (also known as telemedicine).

Our board-certified providers can spend the time they need to get to know you and your health goals.

Our providers spend an average of **45 minutes with each patient**, versus the national average of 18 minutes.

## Beyond a typical primary care visit

- Your in-home provider can:
- Identify tripping hazards
  - Review medicines and supplements
  - Evaluate diet and nutrition
  - Offer resources for social support

## Accepted insurance plans

CenterWell is Medicare Advantage friendly. Ask us about the Medicare Advantage plans we accept in your area.

CenterWell does not discriminate on the basis of race, color, national origin, age, disability or sex.
